- One-touch WPS Button for Easy Wireless Security Setup

### Benefits

#### Ultra-compact Design for Optimal Portability

The compact, lightweight design of NWD2105 offers excellent portability. Users can easily plug NWD2105 to a USB connector on desktop or laptop computers to upgrade the network speed instantly. In addition, the bundled USB cable makes it convenient for users to adjust the direction of NWD2105.

#### Latest 802.11n Compliance with Data Transfer Rates of up to 150 Mbps\*

The NWD2105 brings you faster wireless connection than the existing 802.11g standard. With the data transfer rate of up to 150 Mbps\*, which is three times faster than the 802.11g standard, the NWD2105 offers you the high-speed connection everywhere under Wi-Fi coverage. It not only provides a high-speed network capability, but also works with your existing 802.11b/g network.

#### Soft AP Mode Creates a Wireless Network

With the built-in soft AP function, the NWD2105 can help users to create wireless networks instantly. Just plug NWD2105 into a desktop or laptop computer connecting to a cable or xDSL modem, all other wireless-capable devices can connect to the Internet through NWD2105.

#### Support Multiple Applications with WMM QoS

With WMM QoS certification, the NWD2105 is an excellent solution for you to deliver time-sensitive applications such as video and voice streaming. It significantly enhances your experience on audio, video and voice applications by prioritizing data traffic, so you can enjoy and share multimedia contents with your family or friends without interruption.
