Intro Phrase / Tagline	Mini ITX Without Compromise
Product Full Name/Title	Obsidian 250D Mini ITX Case
25-Word Product Description	The Obsidian Series 250D Mini ITX case can fit a full sized modular PSU, 240mm radiator, optical drive, full length GPU, and up to four drives simultaneously. Now going small doesn't mean you have to make compromises in performance.
50-Word Product Description	The Obsidian Series 250D Mini ITX case is easy to build just like all Corsair cases, and it fits a full sized modular PSU, 240mm radiator, optical drive, full length GPU, and up to four drives simultaneously. Now going small doesn't mean you have to make compromises in performance.
100-Word Product Description	Mini ITX Without Compromise – finally a Mini ITX case that can fit most of what you'd be installing into your standard Mid Tower case in a fraction of the volume! If you ever wanted Obsidian-level flexibility in a smaller form factor, the 250D is the case for you. It comes with excellent cooling out of the box – a front AF140L fan and rear exhaust AF120L, and can simultaneously fit a full sized modular PSU, 240mm radiator, optical drive, full length GPU, and up to four drives. Now going small in size doesn't mean you have to accept less performance.

Product Features	<h3>Design</h3> <ul style="list-style-type: none"> <li>Aluminum front fascia and thick steel construction.</li> <li>Overall dimensions 290mm (H) x 277mm (W) x 351mm (D)</li> <li>Top window for component visibility.</li> <li>Thumbscrew backplate removal for PSU and hard drive access.</li> <li>Easily removed dust filters on all intakes.</li> </ul>
