## Expandable Cable Management Rack

# The ultimate in adjustability and management options.

## FEATURES

- Ideal for high-density racking.
- Fully adjustable width and depth.
- Provides 45U of racking space.
- 12-24 tapped mounting holes.

## OVERVIEW

The Expandable Cable Management Rack provides high stability in an extremely versatile adjustable rack—it adjusts to a 23" racking width without extra hardware and has depth adjustable from 10" to 18".

The rack features heavy-duty cable management, too, with extra-large 9.5" interior cabling channel between posts. Corner posts allow for a 2.5" vertical cable channel and include passthrough holes for inner ganging. The rack has many mounting points for cable ties and cable management spools and side cutouts provide cable access between racks. The optional adjustable Waterfall Cable Manager helps maintain cable bend radius.

To use the Expandable Cable Management Rack with the Ladder Rack (RM650), order a Runway Bracket.

## TECH SPECS

**Rack Units —** 45
**Exterior Height —** 83.75" (212.7 cm)
**Exterior Width —** 23.75" to 27.75" adjustable (60.3 to 70.5 cm)

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

**Recognize any of these situations?**

- **You wait more than 30 minutes to get through to a vendor's tech support.**
- **The so-called "tech" can't help you or gives you the wrong answer.**
- **You don't have a purchase order number and the tech refuses to help you.**
- **It's 9 p. m. and you need help, but your vendor's tech support line is closed.**

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
