Restore your Belkin VoIP unit to the factory default settings

This process may take up to 1-2 minutes

Step 1 Open your web browser (Internet Explorer, Mozilla FireFox, Safari etc)

Step 2 In the Address Bar, delete any text and type in **10.1.1.1** or [Click Here](#) to open the page directly

Step 3 Type in your current password (default password = admin) then click **LOGIN**

Step 4 On the left hand side of the screen click **Advanced Setup**

Step 5 You will now be presented with more options in the menu on the left. Click **Tools** then choose **Configuration Tools**

Step 6 Left click on **Restore router to Factory Defaults** and click **Next**

Step 7 Click **Apply**, the VoIP unit will now restore to factory defaults and reboot.
