

Botticelli Web

MODEM

DESCRIPTION

***The modem for Internet!
Easy to install, fast and reliable.....with a new design.***

Botticelli Web has been projected to get the maximum performance while surfing the Net.

It can surf at 56000 bps using the latest communication standards (V.92-V.90) and it complies with any Internet Provider.

Thanks to the software bundled with the modem, it is possible to send and receive fax up to 14400 bps.

Botticelli Web can be setup for any application through the AT command set.

It can also automatically adjust to the line conditions to guarantee performing and lasting connections.

The approved line interface CTR21 will ensure the maximum compatibility wherever you are.

Drivers for Windows® 2000/ME/98/95/NT4.
