# M7100 SDSL Modem

*Plug-and-Play SDSL Connectivity for Individuals and Small Networks*

## HIGHLIGHTS

- Full duplex, symmetric transmission at speeds from 160 Kbps to 1.568 Mbps
- No hardware switches or software configuration parameters
- Multi speed support offers a choice of bandwidth and budget options

The Netopia M7100 SDSL Modem provides fast, 'always-on' Internet access that is easy to install and use.

Perfect for small offices, branch offices and telecommuters, SDSL provides dedicated throughput ranging from 160 Kbps up to 1.568 Mbps.

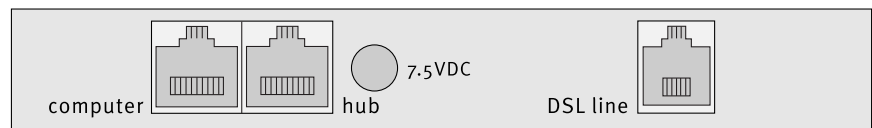

The Netopia M7100 is a true plug-and-play solution. There are no hardware switches, no configuration parameters and no end-user software. Simply plug in the DSL cable, Ethernet cable, and power cord. The M7100 identifies itself to the remote

Copper Mountain DSLAM and automatically receives all configuration parameters to immediately begin full operation.

There is no need to manually configure an IP address for the modem. Users will enjoy enhanced productivity through the continuous availability of high-speed networking within minutes of powering up.

# Technical Specifications

Netopia M7100 SDSL Modem Specifications	
<b>Performance:</b>	Sustained full-rate packet forwarding from 160 Kbps to 1.5 Mbps
<b>Network Management:</b>	SNMP proxy management Remote software upgrade
<b>DSL Interface:</b>	Standard RJ11 jack
<b>10-BaseT Ethernet (IEEE 802.3):</b>	Two(2) MDI / MDI-X connectors (RJ45)
<b>Processor:</b>	Motorola 68LC302 25MHz
<b>Regulatory:</b>	FCC Class B UL Listed
<b>Physical Dimensions:</b>	Size: 1.5" H x 6.5" W x 9.5" D Mounting: Desktop or wall mount
<b>Power Requirements:</b>	AC Voltage: External DC adapter, 110 to 120 VAX, 60 Hz Power: 6 Watts maximum Temperature: 50 to 104 F
<b>Operating Environment:</b>	(10 to 40C) Humidity: 5-95% non-condensing Altitude: to 12,000 feet
