MOTOROLA

WORDline™

WORDline FLX™

Contents

Congratulations on purchasing the Motorola® WORDline™ or WORDline FLX™ pager. The WORDline FLX pager incorporates the latest in paging technology. FLEX technology extends battery life up to four times longer than ordinary pagers and improves the ability to receive pages.

This compact pager combines messaging and time keeping functions in a package that is convenient to carry. Full understanding of what this product offers begins with reading this user's guide. This user's guide includes a detachable Quick Reference Card on the back cover.

Effective Use of Your Pager

Your pager can help you keep in contact with everyone important to you. By giving your pager number to your business associates, family, and friends, you can be contacted when necessary.

If you have a cellular phone, give your pager number instead of your cellular number. Then you can decide who to call back on your cellular phone without paying for incoming calls.

Sending a Test Page to Yourself

After your pager has been activated by your service provider, send yourself a test page.

2

Turning Your Pager On

MOTOROLA

Press ● to turn your pager on.

A start-up message is displayed momentarily and your pager activates the currently selected alert.

Note: The start-up alert can be stopped by pressing any button.
When the pager is on and no activity is taking place, the standby screen is displayed. The standby screen displays the power indicator, the time and date, the alert mode, and may display other pager indicators such as alarm status.

●
12:35P   4/23

Backlight

Press and hold ● for one second or more to activate the LCD message screen backlight.

3

Menu Icons

The four menu icons on the top row (⊛🏛◀Ω) correspond to the four menus: CONTROLS, DELETE ALL, ALERTS, and ALARMS.

The first time you press 🔽 these menu icons are displayed. The controls menu icon ⊛ flashes, indicating that pressing ▶ will enter the controls menu.

Press and release 🔽 to display the CONTROLS?, DELETE ALL?, ALERTS?, and ALARMS? menu prompts. Press ▶ to enter the corresponding menus, or press ● to return to the standby screen.

Turning Your Pager Off

●   ⊛🏛◀Ω
CONTROLS?

●   ⊛
OFF?

12:35P   4/23

❶ From the standby screen, press 🔽 to display CONTROLS?. The controls menu icon ⊛ flashes.

❷ Press ▶ to display OFF?.

❸ Press ▶ to turn the pager off. The off screen is displayed without any icons.

4

Types of Messages

The message indicators define the type of message received and flash until the message is read.

Personal messages: ⬥ unselected   ⬥ selected
Information services

when received: ▣ unselected   ▣ selected
                        ▣ unselected   ▣ selected (FLEX)
when chirp is on: ♪ unselected   ♪ selected
when bookmark is on: √ unselected   ▣ selected

Setting the Scroll Speed

You can choose the speed at which your messages scroll, or read them line by line.

●   ⊛🏛◀Ω
CONTROLS?

●   ⊛
SCROLL?

❶ From the standby screen, press 🔽 to display CONTROLS?. The controls menu icon ⊛ flashes.

❷ Press ▶ to enter the CONTROLS menu.

❸ Press and release 🔽 until SCROLL? is displayed.

❹ Press ▶ to enter the SCROLL menu.

5

●   ⊛
LINE-BY-LINE

❺ Press and release 🔽 to choose the scroll speed.

❻ Press ▶ to select the scroll speed.

There are four scroll speeds to choose from: LINE-BY-LINE, SCROLL 1, SCROLL 2, and SCROLL 3 (fastest).

Receiving/Reading Messages

When a message is received, your pager either alerts audibly (audio, chirp, and Escalert™ modes) or vibrates. A message indicator (for example 1, 2, etc.) lets you know how many messages you have received. On some models, this message indicator displays on the standby screen. On all models, pressing ● displays the message indicator on the message status screen.

●   1   ◀
▮⬥⬥
❶ Press any button to stop the alert.

❷ Press ● to display the message status screen. The message indicators for unread messages ⬥ flash until any part of the message is read.

6

time the message was received

message continuation indicator

message number
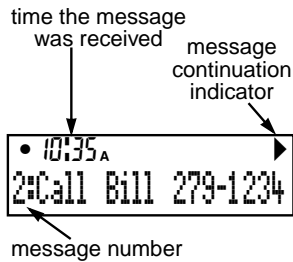

❸ Press ● to read the selected message or press ► to select another message, then press ●.

Hint: On this screen, pressing ◄ displays the previous screen.

❹ If your pager is set to scroll the message automatically (SCROLL 1, SCROLL 2, or SCROLL 3), the remainder of the message is automatically displayed at that speed.

Hint: To pause or restart a scrolling message, press ●.

If the scrolling speed is set to LINE-BY-LINE, press ● to view the next screen.

❺ Allow the pager to automatically return to the standby screen, or press ◄ then ●.

Note: If a message is unread, your pager gives a periodic alert until all unread messages are read. This will continue for up to 30 minutes. A message is considered read if any part of the message is displayed.

7

Scanning Your Messages

When the first line of a message is displayed, press ► to scan all messages of the same type. The message number and the first line of the message are displayed for each message.
Duplicate Messages

When a duplicate message is received, DUPLICATE is displayed after the message number and before the message. The time the duplicate message was received is displayed.

8

Setting the Time and Date

❶ From the standby screen, press ◄ to display CONTROLS?. The controls menu icon Ⓜ flashes.

❷ Press ► to enter the CONTROLS menu.

❸ Press and release ◄ until TIME/DATE? is displayed.

❹ Press ► to enter the TIME/DATE menu. The hour field flashes.

❺ Press and release ◄ to adjust the hour.

❻ Press ► to move to the next field.

❼ Repeat steps 5 and 6 for the minutes, AM/PM, month, and day fields.

❽ Press ● from any field to save.

Hint: Pressing and holding ◄ scrolls through selections quickly.

9

Setting the Incoming Message Alert

You can set your pager to alert with a vibrating alert (vibration with no alert tone), one of the audio alerts, a chirp alert (short beep alert), an alert of increasing volume (Escalert), or no alert (completely silent).

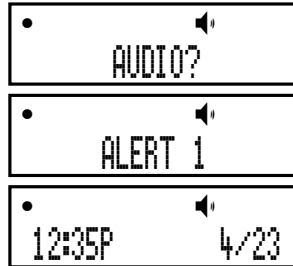

❶ From the standby screen, press and release ◄ until ALERTS? is displayed. The alert icon ◄ flashes.

❷ Press ► to enter the ALERTS menu. VIBRATE? is displayed.

❸ Press and release ◄ until your choice of VIBRATE?, AUDIO?, CHIRP?, ESCALERT?, or NO ALERT is displayed.

❹ Press ► to select the desired alert. The standby screen is displayed with the corresponding alert icon.

10

Note: If the audio alert mode is selected, your pager automatically displays the audio alert options screen.

Choosing an Audio Alert

If you select the audio alert mode, you can set your pager to alert with one of the audio alerts.

```
•                    ◀•
       AUDIO?
```

```
•                    ◀•

```
```
 Ⓒ
   9:00A/11:30A
```
```
 Ⓒ
  12:35P      4/23
```

❹ Press ▬ to enter the PRIVATE TIME menu. The private time enable Ⓒ or disable • icon flashes.
❺ Press ◣ to enable Ⓒ or disable • private time.
❻ Press ▬ to move to the next field. The hour field of the start time flashes.

❼ Press ◣ to adjust the start time hour.

❽ Repeat steps 6 and 7 to adjust the start time minutes, AM/PM, stop time hour, minutes, and AM/PM.
❾ Press ◖ from any field to save and exit. While private time is active, ◀ is not displayed, and the pager does not alert.

Deleting Messages

Messages may be deleted one at a time or all at once.

Deleting a Single Message

```
 •
      DELETE?
```

❶ While reading a message press and release ◣ until DELETE? is displayed.

❷ Press ▬ to delete the message.

Deleting All Messages

The DELETE ALL command deletes all read and unlocked personal messages and information services. Locked or unread messages are not deleted.

```
 •       Ⓜ🏛◀◻
    DELETE ALL?
```

❶ From the standby screen, press and release ◣ until DELETE ALL? is displayed. The delete icon 🏛 flashes.

```
 •       Ⓜ🏛◀◻
      DELETE?
```

❷ Press ▬ to enter the DELETE menu. The delete confirmation DELETE? is displayed.

❸ Press ▬ to delete all personal messages.

Storing Messages

Your pager can store up to 16 personal messages. Each stored message is assigned a number, which is displayed when the message is stored. The first message received is 1, the second is 2, and so on.

Automatic Message Deletion

If all message slots are full and a new message is received, the oldest unlocked read message is automatically deleted.

When the message memory is full, MEMORY FULL is displayed. Press any button to return to the standby screen.

If all messages are unread, the oldest, unlocked message is deleted and OVERFLOW is displayed.

Information Services

Information services are typically news or general updates which provide relevant information.

Your WORDline pager may be equipped with information services. If your pager has this capability, you will receive regular updates throughout the day in up to 3 different information categories. Updates include sports scores and sports news, top stories, and entertainment news.

Note: Content providers and content are subject to change without notice. Update schedules may vary depending upon your service provider. Contact your service provider if you are interested in receiving information services.

19

Reading Information Services

When an information service message is received, ▤ flashes for 12 seconds and the number of unread information services is displayed. After 12 seconds, the standby screen is displayed.
❶ Press ● to display the message status screen.

❷ Press ● to enter the information service menu.
The information service message icons display ▤ or ▤ when selected and ▤ or ▤ when unselected.

❸ Press ► to move to the message you want to read. The corresponding message slot number is displayed.

20
❹ Press ● to read the message. The time the information service was received is displayed with the first screen of the message.
▶ indicates the message is continued on an additional screen.

Note: To return to the standby or message status screen while reading a message, press ▬ and then ●.

Turning the Information Service Alert On and Off

You can set an information service alert for each message slot.

❶ While reading an information service message, press ▬ until CHIRP ON? or CHIRP OFF? is displayed.

❷ Press ► to turn chirp on or off for that information service message slot.

21

Turning the Information Service Bookmark On

You can set a bookmark to hold your place in a lengthy information service while reading it.
❶ While reading an information service message, press ▬ to display BOOKMARK?.

❷ Press ► to activate the bookmark. The message menu screen is displayed.

√ is displayed in the information service menu. The next time you read that information service message, the message begins at the point where the bookmark was placed.

▤ indicates a selected bookmarked message.

22

Out of Range

If your pager is equipped with this feature, and if you are outside your paging coverage area, $\mathbb{Y}$ is displayed. As long as $\mathbb{Y}$ is displayed, your pager cannot receive messages.

Message Error Icons

If there is an error in the message received, the error icon ▊ is displayed over each errored character in the message.

If this option is enabled, and if the truncated message icon ⊣ is displayed at the end of the message, either the message was too long, or there was not enough memory to store the message.

Cleaning Your Pager

To clean smudges and grime from the exterior of your pager, use a soft, non-abrasive cloth moistened in a mild soap and water solution. Use a second cloth moistened in clean water to wipe the surface clean. Do not immerse in water. Do not use alcohol or other cleaning solutions.

Functionality and Use of Your Pager

For questions pertaining to the functions and use of your Motorola pager please visit our web site at www.motorola.com/pagers or in the U.S. call 1-800-548-9954 or 1-800-793-7834 (TDD). For questions pertaining to your paging service, contact your paging service provider.

Care and Maintenance

The WORDline and WORDline FLX pagers are durable, reliable, and can provide years of dependable service; however, they are precision electronic products. Water and moisture, excessive heat, and extreme shock may damage the pager. Do not expose your pager to these conditions. If repair is required, the Motorola Service Organization, staffed with specially trained technicians, offers repair and maintenance facilities throughout the world.

You can protect your pager purchase with an optional extended warranty covering parts and labor. For more information about warranties, please contact either your paging service provider, retailer, or Motorola, Inc. at 1-800-548-9954. For repairs, call Motorola, Inc. at 1-800-548-9954 in the U.S. or 1-800-323-9685 in Canada. In the U.S., to contact Motorola, Inc. on your TDD, call 1-800-793-7834.

Battery Information

Your WORDline or WORDline FLX pager operates with one AAA-size alkaline battery. When the battery is low, the low-battery icon ▄ is displayed between the time and date on the standby screen. Change your battery within five days of receiving a low-battery indication.

Messages are retained when replacing the battery. To retain pager alert settings, turn the pager off before removing the old battery.

Replacing the Battery

❶ Turn your pager off.

❷ To remove the old battery, slide the battery door lock towards the top of the pager to unlock the battery door.

❸ While pressing on the battery door, slide the door until the ribs on the battery door align with the ribs on the back cover.

Battery Door Lock

Ribs

Slide to open

❹ Lift the battery door to free it from the housing.

❺ Remove the battery.

❻ Align the new battery so the positive (+) and negative (-) markings match the polarity diagram in the battery compartment. Insert the battery.

❼ To replace the battery door, align the grooves on the battery door with the grooves on the back cover and slide the battery door closed.

❽ Slide the battery door lock toward the bottom of the pager to lock the battery door.
