Pocket Excel

CASSIOPEIA E-125
Put a lot of color in your pocket with the NEW Cassiopeia E-125, the ultimate in mobile information management. With its big color display and powerful 150 MHz processor, the E-125 is a multimedia powerhouse that enables users to view movies or surf the Internet in vivid color with rich stereo sound. And the E-125 delivers the comprehensive functionality and application support you've come to expect from the Windows Powered platform, making it the perfect tool for remote connectivity and contact management.

Pocket Word

MOVIE & PICTURE

Mobile Picture & Video Player with Camera

The installed software enables you to reproduce both movies and still-photos on the E-125. Furthermore, it allows you to take movies and digital snapshots by inserting an optional Digital Camera Card (350,000 pixel). The movies are stored in the CASIO Format Movie File (CMF file) and still-photos are stored in the JPEG file. These functions are very effective when making powerful business presentations or compiling persuasive business reports.

Make an effective presentation to your client by showing movies of the product shipping process.

Make a powerful proposal by presenting visual reports of shop-observations.

Mobile Video Converter

Allows you to convert QuickTime, AVI, and MPEG1 formats to play on the Mobile Picture & Video Player with Camera.

*There is a limit to the convertible file size.

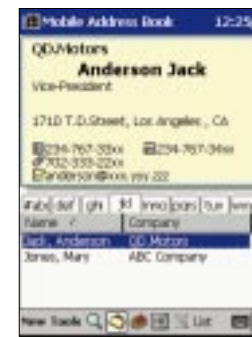

A real-time price simulation can make price negotiations go smoothly.

Personal Information Management

Supports you with up-to-date information at all times, in and out of your office.

ActiveSync®

Simply place the CASSIOPEIA E-125 onto its cradle for an instant synchronization with the Microsoft Outlook on your desktop computer and the CASSIOPEIA PIM software. By using the USB cradle included with the E-125 unit, high-speed data transfer can be quickly accomplished.

Mobile Address Book

Easy reference card format address book that efficiently manages business cards, addresses, telephone numbers, e-mail addresses, etc...

Mobile Calendar

Displays month, week and day units separately.

Mobile Communication

Real time information leads you to business success.

Includes GSM software modem **MTDS**

Supports WAP, SMS, E-mail, and Internet when used in combination with a GSM mobile phone.

*Web browsing and E-mail requires an optional GSM connection cable, sold separately, and an ISP subscription.

Pocket Internet Explorer

Mobile E-mailer

Mail Setup Tool & Mail Setup Manager for CASSIOPEIA

Eliminates troublesome e-mail setup operations by simply following the wizard display.

Music Playback

Windows Media™ Player

Plays MP3 and Windows Media formats in stereo. With optional stereo earphones and Windows Media Player, you can listen to your favourite music files, even when you're out.

Prompt e-mail replies gain the confidence of your clients.
