

Pocket LOOX 600

The modular handheld

Pocket LOOX is the new handheld from Fujitsu Siemens Computers. It supports the user with integrated connectivity and expansion capabilities through its Compact Flash Card, SD/MMCard slots and 2nd battery plug-on module. The wide range of possible CF Type II Card solutions such as GPS, WLAN, storage and modem, together with the synchronous usage of SD/MMCard (MultimediCard) storage solutions, opens the field for the use of Pocket LOOX as a serious business tool.

Simply connect via the integrated Bluetooth™ module to your notebook or Desktop and synchronize calendar entries, contacts, your inbox, programs and files. Join into a Bluetooth™ hot spot and browse the web, look for new E-mails and get information. Insert a WLAN CF Card and move through your company staying connected. Or get connected every time and everywhere **with a GPRS CF Card**. Pocket LOOX – the mobile office in your hand.

Key Features:

- § Wireless data transmission with the integrated Bluetooth™ module
- § Freedom of expandability due to the integrated SD/MMCard slot and CF Card slot type II
