

VISOR

neo™

Amazing versatility
and value in one
extraordinary handheld

The Handspring Visor Neo combines **amazing versatility and value** in one infinitely expandable handheld computer. Running the popular Palm OS, it will help you keep track of your life – just like an organiser – while staying well within your budget. But the Visor Neo is more than just an organiser. With the unique **Springboard™ expansion slot**, you can turn your Visor Neo into whatever you want it to be in no time. With no drivers to load, you can just plug-and-play – simply snap in a module and it's a digital camera, a modem, a phone and more besides!

Based on the popular Palm OS®, the Visor Neo has everything you need to organise your busy life: address book, enhanced date book, to do list, memo pad, advanced calculator and world clock. And there are thousands of other Palm-compatible applications available to download, so you can also enjoy games, guides and books on your Visor Neo. What's more, you can even beam information and programs to other Palm users.

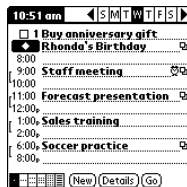

As if all that weren't enough, the **USB connection** makes synchronising with your desktop computer really fast – and really easy. Using the USB cradle and HotSync® technology, you can back up, update or exchange information between your Visor Neo and desktop computer in seconds. You can even transfer existing Palm organiser data to your Visor Neo with just one touch.

There are plenty of great accessories available for your cool, **Smoke-coloured** Visor Neo, such as custom cases, keyboards and styli. So, if you're still trying to manage your life with a paper address book, calendar, and sticky notes, it's time to switch to the Visor Neo. With all the organising essentials you need supplied as standard, it can be expanded in an instant and is incredibly easy to use. Last but by no means least, it's surprisingly affordable.

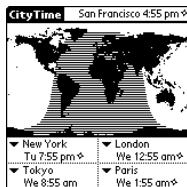

Visor Neo™ Features

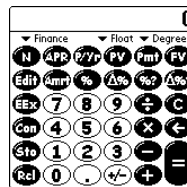

Incredibly organised

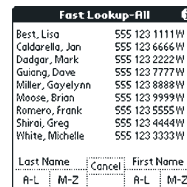

Enhanced date book with expanded views, including weekly, yearly and a list view. Integrated to do items that appear in the daily calendar view.

World clock showing day of the week and time in five cities around the globe.

Advanced calculator with advanced maths, trigonometry, business, statistical, and conversion functions; built-in maths library for higher precision.

Fast Lookup to help you find an Address Book entry in no time, using buttons instead of the stylus.

Runs the popular Palm OS®

- Use thousands of Palm OS based software programs.
- Transfer existing data from a Palm organiser to your Visor Neo with just one touch.
- Beam information or programs between your Visor Neo and other Palm organisers.

Infinitely expandable

- Handspring's unique Springboard™ expansion slot means your Visor Neo can become a digital camera, modem or even a phone.
- It's the first true "plug-and-play" expansion solution. No need to load anything – just plug in a module and away you go!
- No other handheld lets you switch functions so easily. Use your modem for business and your digital camera for pleasure.
- Modules can be purchased separately. Check www.handspring.co.uk for availability.

Well connected

- The USB connection makes synchronising with your desktop computer a whole lot faster and easier.
- Instantly back up, update and exchange information between your Visor Neo and desktop computer with the USB cradle and HotSync® technology.
- Windows and Macintosh desktop software included.

Plus...

- It comes in a cool Smoke colour.
- It's affordable – fitting your pocket and your budget.
- It's paperless. Throw out your paper address book and calendar and see how easy organising can be.
- It's simple. Perfect for first-time handheld computer users.
