## ARCHITECT® SERIES II BUILT-IN WALL OVENS

BIG ON CAPACITY, CONVENIENCE AND STYLE

LARGEST CAPACITY AVAILABLE\*  
5.0 CU.FT.

24<sup>3</sup>/<sub>8</sub>" W X 14<sup>7</sup>/<sub>8</sub>" H on 30" models  
Industry's Largest Viewing Window\*\*

### Largest Capacity Available\*

Large capacity is the perfect complement to Even-Heat™ Technology. After all, "Most Even Baking"™ helps expand the usable capacity cooks can rely on for uniform heating.

### Industry's Largest Viewing Window\*\*

Cooks — and eager friends and family — can easily view cooking without opening the oven door. And when door stays closed, uniform heating and even baking and roasting is assured.

### Glass-Touch Display

Controls for pre-programmed and manual settings are precise and respond to the touch of a fingertip.

### EASYCONVECT™ CONVERSION SYSTEM

The EasyConvect™ Conversion System takes the guesswork out of convection cooking. It automatically adjusts time or temperature so traditional recipes may be used with convection settings — saving cooks the inconvenience of converting cooking times and temperatures themselves.

\* Among leading premium brand 30-inch wall ovens. \*\* Among leading brand wall ovens.

FIT SYSTEM

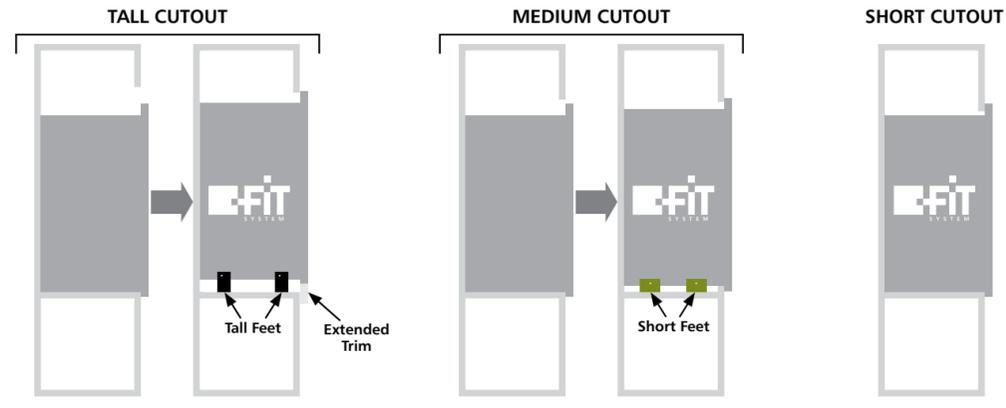

### Designed to Fit\*

Unique feet and trim design allows installers to make simple adjustments to the oven, to ease installation of replacement oven models of compatible width and configuration into existing cabinetry.

- Easily customize installations into existing cabinets without requiring cabinet replacement or the significant cost of remodeling
- Adjustable feet adapt installation to a variety of cabinet heights
- Unique trim design for taller cutouts creates custom-finished appearance

SIDE VIEW

THE FIT SYSTEM IS DESIGNED TO COVER A VARIETY OF WALL OVEN CUT-OUT HEIGHTS USING UNIQUE ADAPTABLE COMPONENTS INCLUDING ADJUSTABLE TRIM AND REPOSITIONABLE FEET

### SINGLE OVEN CUTOUT HEIGHT FOR 27"/30" OVENS\*\*

TALL	28 <sup>1</sup> / <sub>16</sub> " – 29 <sup>1</sup> / <sub>16</sub> "
LG (30")	

MEDIUM	27 <sup>1</sup> / <sub>16</sub> " – 28 <sup>1</sup> / <sub>16</sub> "
--------	---

GE (27")	Kenmore Elite
GE Profile (27")	Whirlpool
Electrolux	Maytag
Frigidaire	KitchenAid
Kenmore	Bosch

SHORT	26 <sup>1</sup> / <sub>16</sub> " – 27 <sup>1</sup> / <sub>16</sub> "
-------	---

Dacor	Electrolux
Kenmore	GE (30")
Kenmore Elite	GE Profile (30")
Frigidaire	

FIT System components allow coverage of cut-out heights from 26<sup>1</sup>/<sub>16</sub>" to 29<sup>1</sup>/<sub>16</sub>" in standard single oven models.

### DOUBLE OVEN CUTOUT HEIGHT FOR 27"/30" OVENS\*\*

TALL	51 <sup>1</sup> / <sub>16</sub> " – 52 <sup>1</sup> / <sub>16</sub> "
LG (30")	GE (30") GE Profile (30")

MEDIUM	50 <sup>1</sup> / <sub>16</sub> " – 51 <sup>1</sup> / <sub>16</sub> "
--------	---

Dacor	
Bosch	

SHORT	48 <sup>1</sup> / <sub>16</sub> " – 50 <sup>1</sup> / <sub>16</sub> "
-------	---

GE (27")	Kenmore Elite
GE Profile (27")	Dacor
Electrolux	Whirlpool
Frigidaire	KitchenAid
Kenmore	Maytag

FIT System components allow coverage of cut-out heights from 48<sup>1</sup>/<sub>16</sub>" to 52<sup>1</sup>/<sub>16</sub>" in standard double oven models.

\* Available on 27" and 30" standard double and single wall ovens. See product specifications for minimum and maximum installation dimensions.  
 \*\* Cutout dimensions listed are for demonstration purposes only and are based on manufacturer's current model lines. See product specifications for minimum and maximum installation dimensions.  
 NOTE: Combination wall ovens do not come with the FIT System, but it may be purchased separately. The FIT System Limited Guarantee does not cover combination wall ovens.

### The FIT System Limited Guarantee

Wall ovens featuring the FIT System are designed to fit your existing cabinet cut-out of a compatible width and configuration. If your new replacement model doesn't fit your current cutout, contact us within 30 days of purchase to receive up to \$250 toward the cost of professional cabinet modification. Valid 8/1/12 – 6/30/13.

Visit [www.kitchenaid.com/thefitsystemlimitedguarantee](http://www.kitchenaid.com/thefitsystemlimitedguarantee) for complete details.

## ARCHITECT® SERIES II BUILT-IN WALL OVENS

CULINARY PERFORMANCE FROM EVEN-HEAT™ TECHNOLOGY

★ Most Even Baking\*

★ Even-Heat™ Preheat

★ Even-Heat™ True Convection

# THE MOST EVEN BAKING\*

Even-Heat™  
Technology

\* Among leading premium brand 30-inch wall ovens.

**EVEN-HEAT™ TECHNOLOGY DELIVERS CULINARY CONFIDENCE**

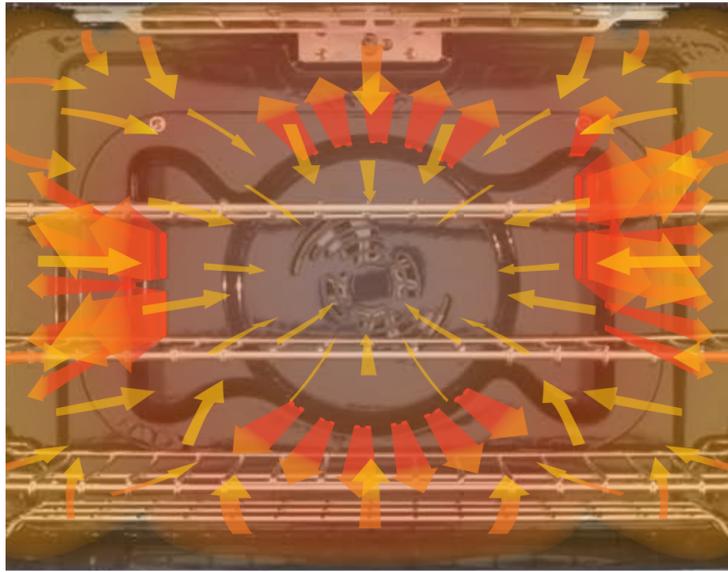

Cookies, muffins and biscuits baked consistently from top rack to bottom, time after time. No more over-baked bottoms on lower racks, too-dark tops on higher racks, and just not done enough stuff in the middle. This is technology that will attract the most demanding cooks — and it's built in to every one of our new KitchenAid® Wall Ovens.

**EVEN-HEAT™ TRUE CONVECTION DIRECTS HEAT BETWEEN THE RACKS**

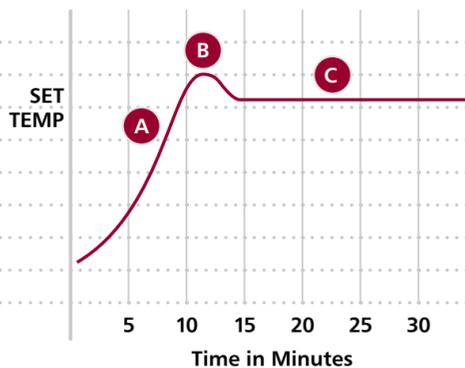

Using a hidden convection element, fan and an advanced bow-tie baffle, heat is uniformly guided between racks and around food to avoid layering of heat that can cause uneven results.

- No need to rotate pans during baking
- Expands the useful area of the oven so cooks can use more of the large oven cavity and still get consistent results

**EVEN-HEAT™ PREHEAT PUTS MORE HEAT INTO OVEN WALLS AND RACKS**

KitchenAid® Ovens with Even-Heat™ Preheat

Powerful elements heat the oven above the set temperature to saturate the oven walls and racks with heat, eliminating cold spots before preheating is finished.

Once brought to set temperature the mass of racks and walls helps retain heat when food is loaded into the oven.

- A** Air heats quickly when preheating begins
- B** Slower heating racks and walls require added heat to reach air temperature
- C** When air temperature falls, racks stay heated and uniform heating is achieved
