### RANGE COMPOSITION

ZANUSSI Professional easySteam blends tradition with the latest technological research in order to satisfy the creativity and working requirements of today's professional kitchen. The easySteam range offers a choice of different models, providing a high degree of automation and an extensive range of accessories. The easySteam combis are designed to form complete cook&chill systems together with easyChill blast chillers/freezers, therefore, any installation can be tailored to meet the needs of the caterer.

The easySteam combis detailed are 10 GN 1/1 gas models.

## easySteam OVENS

## COMBILW 10 GN 1/1-GAS

#### ZANUSSI PROFESSIONAL

# FUNCTIONAL AND CONSTRUCTION FEATURES

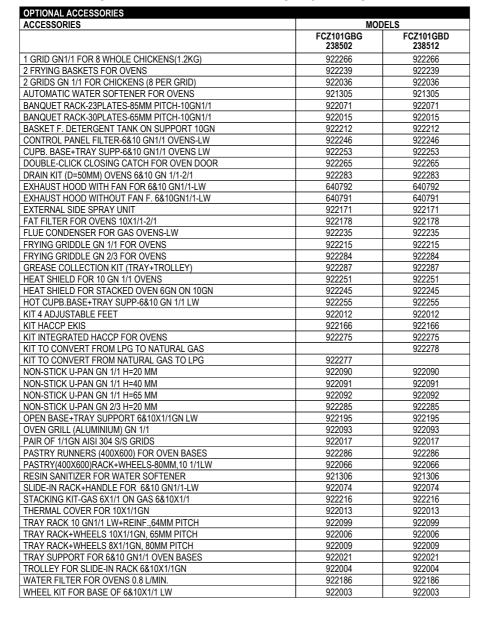

- ◆ Convection cycle (max. 300 °C): ideal for meat to be cooked without humidity and "au gratin". In conjunction with the half-power function for all kinds of pastry cooking.
- ◆ Steam cycle (max. 130 °C): for products that can be cooked in water. Steam cooking respects the original properties of food and reduces weight loss.
- ◆ Combi cycle (max. 250°C): ideal for most kinds of cooking. Impressive reduction of cooking times and food shrinkage. The humidity generated by the food and the steam generator is automatically controlled by the By-pass technology for saving water and energy.
- easySteam ovens can cook by controlling either the cooking time or the product's core temperature through a single-sensor probe.
- ◆ Regeneration cycle: it produces the best humidity conditions for quickly heating the products to be regenerated (max. 250°C) on the plate.

TECHNICAL DATA			
CHARACTERISTICS	MOD	MODELS	
	FCZ101GBG 238502	FCZ101GBD 238512	
Power supply	Gas	Gas	
Gas	Natural Gas	LPG	
Number of grids	10	10	
Runners pitch - mm	65	65	
Cooking cycles - °C			
air-convection	300	300	
steam	130	130	
combi	250	250	
Convection	•	•	
Steaming	•	•	
Convection/steaming	•	•	
Cook&hold	•	•	
Regeneration	•	•	
Low temp steaming	•	•	
Two-speed fan	•	•	
Meat probe	•	•	
Semi-automatic cleaning cycle	•	•	
External dimensions - mm			
width	898	898	
depth	915	915	
height	1058	1058	
Internal dimensions - mm			
width	460	460	
depth	715	715	
height	736	736	
Power - kW			
boiler	20	20	
cooking chamber	20	20	
electric	0.3	0.3	
gas	35	35	
auxiliary	0.3	0.3	
Net weight - kg.	160	160	
Supply voltage	230 V, 1N, 50/60	230 V, 1N, 50/60	

- ◆ Fan speeds: full, half speed (for delicate cooking such as for baking cakes) and HOLD (pulse ventilation for baking and low temperature cooking). The "HOLD utility" is also perfect for keeping food warm at the end of the cooking cycle.
- ◆ Low power cycle: for delicate cooking such as for baking cakes.
- ◆ Eco-delta: the temperature inside the cooking cell is higher than the temperature of the food and rises accordingly.
- ◆ Exhaust valve electronically controlled to evacuate the humidity excess.
- Semi-automatic cleaning cycle.
- ◆ Quick cooling: useful when passing to a type of cooking that requires a lower temperature than the previous one. It works automatically and manually.
- ◆ Manual injection of water in the cell.
- ◆ Automatic steam generator water draining with an automatic scale diagnosis system.
- ◆ HACCP management as standard: it

- allows the recording of the cooking programme according to H.A.C.C.P. standard (Hazard Analysis and Critical Control Points).
- ◆ By-pass technology: controls the humidity degree of the oven atmosphere in combi and regeneration cycles. It prevents water and energy waste.
- ◆ Perfect eveness: blows fresh air from outside through the bi-functional fan, which pulls the air in from the backside of the oven, after it is pre-heated and therefore guaranteeing the evenness of the cooking process.
- Single-sensor food probe.
- ◆ The cell and steam generator gas burners: GASTEC certification on high efficiency and low emissions. High efficiency cell and steam generator heat exchangers.
- ◆ Stainless steel 304 throughout, with seamless joints in the cooking cell.
- ◆ Height adjustable legs.

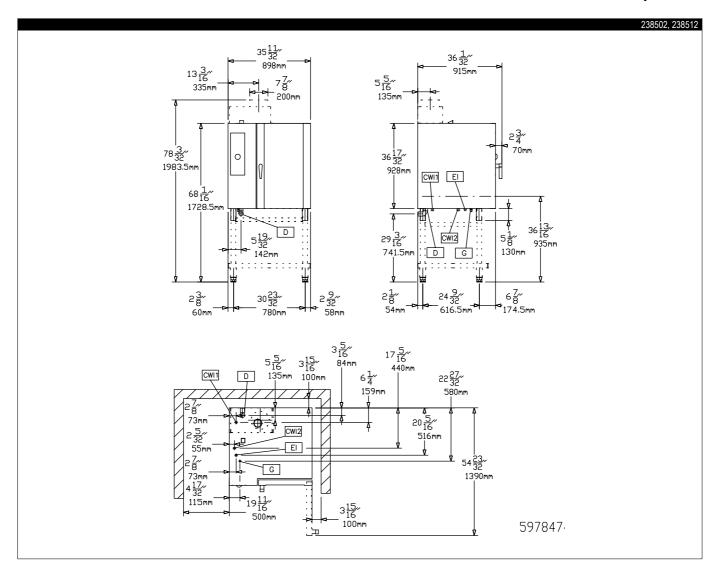

- ◆ Double thermo-glazed door equipped with drip pans to catch condensate and prevent slippery floor for maximum security and four holding positions allowing easier loading and unloading manoeuvres.
- ◆ Halogen lighting in the cooking cell.
- ◆ Access to main components from the front panel.
- Automatic scale diagnosis system in the steam generator to detect the presence of scale build-up.
- IPX5 water protection.
- easySteam ovens meet GASTEC safety requirements.
