

## Flexi-Lite Cables

**Flexible, yet sturdy cabling  
that fits into tight spaces!**

## FEATURES

- 90-degree space-saving connectors.
- Lightweight design makes installation a snap.
- Perfect for laptop and notebook computers.
- Useful when installing PCs or other devices in tight spaces with little clearance.

## OVERVIEW

Say good-bye to bulky cables that make installation a headache and portability a problem.

Introducing an innovative computer cable patented with a 90-degree slim-line connector that you can easily carry in your pocket or briefcase. Flexi-lite cable is perfect if you travel with a laptop or notebook computer—or if your workstation is tight on space.

Flexi-lite cable is available in six configurations. One is certain to fit your application.

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

### Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p. m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
