

i455

Desktop Photo Printer

Beautiful Photos. Sharp Text. Great Value.

- Maximum 4800 x 1200 color dpi with droplets as small as 2 picoliters
- Direct photo printing from compatible digital cameras & camcorders
- Up to 18 ppm black/up to 12 ppm color
- Edge-to-edge true borderless photos (4 x 6, 5 x 7 and 8.5 x 11 in.)
- Easy-PhotoPrint and Easy-WebPrint software included

Advanced printer technology delivers both speed and quality.

The Canon i455 Desktop Photo Printer delivers professional-looking photos and enables easy Web page printing. It uses pigment-based black ink for laser-like text on reports and e-mails along with high intensity color inks for brilliant photos. To further improve color reproduction, Canon advanced MicroFine Droplet Technology™ uses an innovative 1,088 nozzle print head that ejects consistent, prescribed-volume droplets. This technology delivers a maximum resolution of 4800 x 1200 color dpi* with droplets as small as 2 picoliters for improved photo details.

Introducing PictBridge direct printing technology.

With select Canon digital cameras you can enjoy printing photos without a computer using Bubble Jet Direct** technology. To appeal to a wider digital camera audience, PictBridge** direct printing technology has been developed as the next step in PC-free photo printing. Simply connect any PictBridge-compatible digital camera or camcorder directly to your i455 printer and print! You can even select paper size, layout and other settings right on your camera's display. With the versatile i455 printer you can print edge-to-edge, true borderless photos with the look and feel of traditional photographs. Print 4 x 6, 5 x 7 or 8.5 x 11 in. borderless photos with stunning quality, perfect for framing or the scrapbook. Produce great-looking 4" x 6" borderless prints in approx. 93 seconds*** without ever leaving your home.

Canon software tools for Photo and Web printing.

The included Easy-PhotoPrint† software, an Exif Print 2.2 compatible application, makes it simple to print brilliant digital photos. It faithfully reproduces the colors digitally captured, while improving image quality by virtually eliminating "Photo Noise" and boosting color saturation with "Vivid Photo" driver enhancements. The result: more perfect-looking photos that you can't wait to share. Canon developed Easy-WebPrint† software to help eliminate the hassles of Web printing. Now, Web pages are automatically formatted, so they'll print properly with full color and without trimming off the right-hand margin.

* Resolution may vary based on printer driver setting. Ink droplets can be placed with a minimum pitch of 1/4800 inch.

** For a listing of select Canon digital cameras and camcorders featuring Bubble Jet Direct or PictBridge direct printing technology, visit www.usa.canon.com/consumer/directprint. To determine if a non-Canon brand camera or camcorder is PictBridge-compatible, please consult the manufacturer.

*** 4" x 6" photo print speed based on default driver mode using Canon Photo Paper Pro. Print speed will vary based on system configuration, software, document complexity, print mode and page coverage.

† Easy-PhotoPrint is not supported on Mac OS 8.6. Easy-WebPrint is compatible with Windows® XP and Windows 2000/Me/98 only, and requires Microsoft® Internet Explorer version 5.5, version 6.0 recommended.
