- Dimensions: 5-3/16" wide x 4-1/2" high x 2-1/2" deep (depth behind wall: 1-1/16" based upon 1/2" drywall)

Warranty: Two-year limited

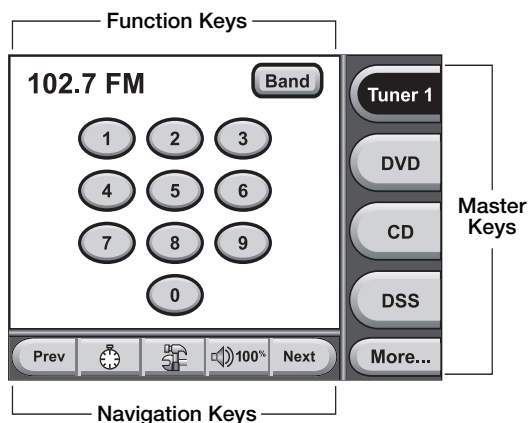

Product Detail

The TS-1 contains Hard Keys to control the most common functions and Touch Keys which are software-driven and will change functionality (and visually) as you touch them.

In addition, an IR Sensor and a PROGRAM Jack (for installers) are hidden under the faceplate to communicate with a (optional) Niles R-4 or R-8 Remote Controls. Installers can set custom features on the TS-1 when using a connected laptop PC and our TS-1 programming software. The TS-1 contains two connections for a Niles MultiZone System (i.e., ZR-4630, ZR-8630AV, or A4.6Ci) and IR sensor.

TS-1 front Touch Screen:

Hard Keys and Touch Keys appear on the back-lit Touch Screen.
