DIGIT DISPLAY

WALLET CALCULATOR

UNV-15907
Owner's Manual

Universal

FEATURES

Large, 8-Digit Display – big, easy-to-read LCD numbers.

Four Function Memory – includes addition, subtraction, recall, and clear.

Dual Solar/Battery Power – built-in solar panel extends battery life by powering the calculator in the light.

Automatic Power Off – saves battery power by turning off the calculator if it is left unused for about 7 min.

OPERATING THE CALCULATOR

ON/C•CE Key – Power ON / Clear LCD / Clear Entry. Power OFF after a few minutes if no button is pressed. If a result is too big to show in the LCD, the calculator stops and displays **E**. Press **ON/C•CE** to continue.

Metal Carrying Case – Protects the calculator wherever you go.

+/- Key – Press to change the displayed number from positive (+) to negative (–) or from negative (–) to positive (+). **MINUS** – is displayed when the value is negative.

MEMORY FUNCTIONS

[M+] Press to add the displayed number to memory
MEMORY is displayed.

[M–] Press to subtract the currently displayed number from memory.

[MR] Recall the number in memory.

[MC] Clear the memory.

REPLACING THE BATTERY

1. Remove the two screws on the rear panel. Using a flat edge, pry open the rear panel.
2. Slide out the old battery. Insert the new battery with the + side up.
3. Replace the rear panel.

PERFORMING CALCULATIONS
