## **3. PINNACLE INSTANTWRITE**

#### INTRODUCTION

Pinnacle InstantWrite enables you to use your Pioneer DVR-A05 DVD-R/RW drive just like a hard disk or floppy disk. You can drag and drop files, create new directories right on your media and even save files from your applications (e.g. word processing, drawing, etc.) directly to your drive.

Pinnacle's InstantWrite is a complete Universal Disc Format (UDF) packet writing application that supports DVD-RW, CD-R/RW, DVD-R and all UDF levels up to 2.01. Whether you're copying your whole hard disk or just one small file, InstantWrite can do it fast and easy in the same way as you would on your hard drive. Because InstantWrite writes the data in small packets, no buffer under-runs can occur. Almost no additional space is needed so you can use the entire disc capacity for data storage.

## INSTALLATION

To install Pinnacle InstantWrite to your computer, follow the directions below.

1) Launch the Pinnacle Installer from the initial splash screen or double-click the setup.exe file located in the Pinnacle folder on the installation CD.
