

Portable CD Player

Operating Instructions

About the area code

The area code of the location in which you purchased the CD player is shown on upper left of the bar code label on the package.

For accessories supplied with your CD player, check the area code of your model and see "Accessories (supplied/optional)."

D-MJ95

WARNING

To prevent fire or shock hazard, do not expose the unit to rain or moisture.

To avoid electrical shock, do not open the cabinet. Refer servicing to qualified personnel only.

CAUTION

The use of optical instruments with this product will increase eye hazard.

Owner's Record

The model and the serial numbers are located at the rear. Record the serial number in the space provided below. Refer to these numbers whenever you call upon your Sony dealer regarding this product.

Model No. D-MJ95

Serial No. _____

Certain countries may regulate disposal of the battery used to power this product. Please consult with your local authority.

For the customers in the USA and Canada

This mark is available in the USA and Canada only

RECYCLING NICKEL-CADMIUM BATTERIES

Nickel-Cadmium batteries are recyclable. You can help preserve our environment by returning your unwanted batteries to your nearest point for collection, recycling or proper disposal.

Note: In some areas the disposal of nickel-cadmium batteries in household or business trash may be prohibited.

RBRC (Rechargeable Battery Recycling Corporation) advises you about spent battery collection by the following phone number.

Call toll free number: 1-800-822-8837 (United States and Canada only)

Caution: Do not handle damaged or leaking nickel-cadmium batteries.

INFORMATION

Listening for many hours at maximum volume may damage your hearing.

For the customers in the USA

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

For the customers in Australia

The supply cord of the AC power adaptor cannot be replaced; if the cord is damaged, the AC power adaptor should be discarded.

Getting started

Locating the Controls

For details, see pages in parentheses.

CD player (front)

CD player (inside)

CD player (rear)

Rotary commander

Note

The supplied rotary commander should be used with this player only.

Playing a CD

You can also use rechargeable batteries, dry batteries and house current (AC power adaptor) as a power source.

1. Connect your CD player.

- 1 Connect the car connecting pack.
- 2 Connect the car battery cord.
- 3 Connect the rotary commander.

Note

Turn down the volume of the car cassette deck before inserting the car connecting pack.

2. Insert a CD.

- 1 Slide OPEN and raise the lid.

- 2 Place the CD on the tray and close the lid.

3. Play a CD.

Adjust the volume on the car cassette deck.

Go forward quickly	Hold down ▶▶* ²

*¹ Automatic Music Sensor

*² These operations can be done during both play and pause.

About the display

- When you press ▶|| after changing the CD or turning off and on the player, the total number of tracks in the CD and total playing time appear for about two seconds.
- During play, the track number and the elapsed playing time of the current track appear.
- Between tracks, the time to the beginning of the next track appears with the “-” indication.
- During pause, the elapsed playing time flashes.

Illumination of the display and the buttons on the CD player

When using the CD player on the AC power adaptor or car battery, the display and the buttons are illuminated during play so that you can check the display and the location of the buttons easily. When charging the rechargeable batteries on this player, however, the display will not be illuminated.

Notes

- If the illumination of the display does not go off after you turn off the ignition key, disconnect the car battery cord from the cigarette lighter socket.
- When using the CD player on the AC power adaptor, illumination of the display and the buttons may become dim during AMS operation, etc., but this is not a malfunction.

(Continued)

If the volume level does not increase

Is AVLS set to “LIMIT”? Set AVLS to “NORM.” For details, see “Protecting your hearing (AVLS).”

Playback starts from the point you stopped

Your CD player can recall the playback point where you stopped and then resume playing from the same place (resume function). There is no ON/OFF switch of the resume function on this CD player.

Removing the CD

Remove the CD while pressing the pivot in the center of the tray.

Playback options

You can enjoy various ways of playback using PLAY MODE and REPEAT/ENTER.

PLAY MODE button

Each time you press the button, you can change the playback mode.

"No indication"
(Normal play)

"1"
(Play a single track)

"SHUF"
(Play tracks in random order)

"PGM"
(Play tracks in your favorite order)

REPEAT/ENTER button

REPEAT

You can repeat play that is selected using PLAY MODE.

ENTER

You can select tracks for PGM play mode.

◀◀/▶▶
buttons

▶▶ button

■/CHG button

Playing tracks repeatedly (Repeat play)

You can play tracks repeatedly in normal, single, shuffle and PGM play modes.

During playback, press REPEAT/ENTER.

Note on I◀◀/▶▶I

During Repeat play, you can locate the first track after the last track by pressing ▶▶I repeatedly. You can also locate the last track after first track by pressing I◀◀ repeatedly.

Playing a single track (Single play)

During playback, press PLAY MODE repeatedly until "1" appears.

Playing tracks in random order (Shuffle play)

During playback, press PLAY MODE repeatedly until "SHUF" appears.

Playing tracks in your favorite order (PGM play)

You can program the CD player to play up to 64 tracks in your favorite order.

- 1 During playback, press **PLAY MODE** repeatedly until “PGM” appears.

- 2 Press **◀◀** or **▶▶** to select a track.

Playing order Track number

- 3 Press **REPEAT/ENTER** to enter the selected track.
“00” appears and the playing order increases by one.

- 4 Repeat steps 2 and 3 to select the tracks in your favorite order.

- 5 Press **▶||** to start the PGM play.

To check the program

During programming:

Press **REPEAT/ENTER** repeatedly before step 5.

During the PGM play:

Press **PLAY MODE** repeatedly until “PGM” flashes, then press **REPEAT/ENTER**. Each time you press **REPEAT/ENTER**, the track number appears.

Notes

- When you finish entering the 64th track in step 3, the first selected track appears in the display.
- If you select more than 64 tracks, the first selected tracks are erased.

G-PROTECTION function

The G-PROTECTION function has been developed to provide excellent protection against sound skipping while jogging. This function provides a higher level of shock protection than the traditional one. While jogging, be sure to hold your CD player with the OPEN switch facing upward.

Set G-PROTECTION (under the lid) to "ON."

G-PROTECTION

OFF ON

To turn off the G-PROTECTION function

Set G-PROTECTION to "OFF."

Note

Sound may skip if:

- the CD player receives stronger continuous shock than expected or
- a dirty or scratched CD is played.

Emphasizing the bass sound (SOUND)

You can emphasize the bass-boosted sound.

Press SOUND to select "BASS ■■" or "BASS ■■■."

The selected sound mode is displayed.

"BASS ■■■" enhances the bass sound more than "BASS ■■."

Note

If the sound is distorted when using the SOUND function, turn down the volume.

Protecting your hearing (AVLS)

The AVLS (Automatic Volume Limiter System) function keeps down the maximum volume to protect your hearing.

Set AVLS (in the battery compartment) to "LIMIT."

Flashes when the volume is turned up and beyond a certain level.

To turn off the AVLS function

Set AVLS to "NORM."

Locking the controls (HOLD)

You can lock the controls on your CD player to prevent accidental button presses.

Slide HOLD in the direction of the arrow.

Displayed when the HOLD function is working.

You can use the HOLD function on the CD player. Even if the controls are locked on the CD player, you can still operate your CD player using the rotary commander.

To unlock the controls

Slide HOLD in the opposite direction of the arrow.

Turning off the operation beep sound

You can turn off the beep sound that is heard from your headphones/earphones when you operate your CD player.

1 Remove the power source (AC power adaptor, rechargeable batteries or dry batteries) from the CD player.

2 Connect the power source while pressing ■/CHG on the CD player.

To turn on the beep sound

Remove the power source and then connect the power source without pressing ■/CHG.

Connecting a stereo system

You can listen to CDs through a stereo system and record CDs on a cassette tape. For details, see the instruction manual that comes with the connected device.

Be sure to turn off all connected devices before making connections.

Notes

- Before you play a CD, turn down the volume of the connected device to avoid damaging the connected speakers.
- Use the AC power adaptor for recording. If you use the rechargeable batteries or dry batteries as a power source, batteries may become completely depleted during recording.
- Adjust the volume properly on the connected device so that the sound will not be distorted.

When using the connecting cord

- You cannot adjust the volume of the headphones/earphones.
- If the sound is distorted, connect the device to the /REMOTE jack.
- The SOUND function does not work.

Where to place your CD player and rotary commander

- Install the CD player and the supplied rotary commander in a flat location which:
 - does not interfere with your driving.
 - is not dangerous for passengers.
 - does not interfere with the glove box lid or ashtray.
 - is stable, and where nothing around it may interfere with installation.
- Do not install the CD player and rotary commander near heat sources or where subject to direct sunlight, excessive dust, or moisture (especially on a dashboard).

Please understand that we will not incur any obligations for troubles caused by incorrect installation.

If you have any questions or problems concerning your CD player, please contact your nearest Sony dealer.

Mounting your CD player

Attach the CD player to the console box with the supplied Velcro tapes.

Notes

- Do not affix Velcro tapes to the name plate or the lid of the battery compartment.
- When you are going to park your car for a long period of time, remove the CD player from the Velcro tapes so that it will not be exposed to direct sunlight.

To route the cord

Use the supplied spiral tube to route the cords so that they do not interfere with your driving.

Note on the car battery cord

The 4.5V DC plug supplied with car battery cord conforms to the proposed standards of the Electronic Industries Association of Japan (EIAJ). Do not connect it to other players.

Polarity of the plug (EIAJ standards)

Replacing the fuse of the car battery cord

If the player does not operate, check the fuse. If it is blown, replace it as follows:

- 1 Turn off the CD player and remove the cigarette lighter plug from the cigarette lighter socket.**
- 2 Remove the plug end by turning it counterclockwise.**
- 3 Remove the defective fuse from the plug.**
- 4 Insert a new fuse into the plug.**
- 5 Replace the plug end by turning it clockwise.**

Notes

- Be sure to use a fuse of the same amperage and length as the one to be replaced. Never use a piece of wire as a substitute for the fuse.
- If the fuse is blown again after replacing it, contact your nearest Sony dealer. In such a case, bring the defective fuse to the dealer with you.

Notes on the car connecting pack

- If no sound is heard or the car connecting pack is ejected, change the direction of playback on the car cassette deck.
- Never insert the cord end of the car connecting pack into the cassette insertion door. Otherwise, the cord may break or the car cassette deck may be damaged.
- You cannot use the car connecting pack with some car cassette deck.
- The cord should be placed so that it does not hinder driving.
- To disconnect the cord from the player, pull it out by grasping the plug. Never pull the plug out by the cord.
- With some car cassette decks, you may hear some rattling noise from the car connecting pack. However, this is not a sign of malfunction.

Mounting the rotary commander

If you use the supplied rotary commander, you can control your CD player as you would control the headlight or the wiper switch of your car while driving. Attach the rotary commander to a flat place as illustrated below.

-
- 1** Attach the mounting hardware to the rotary commander by aligning the four catches on the mounting hardware to the four holes on the bottom of the commander and sliding the hardware until it locks into place.

-
- 2** Attach the rotary commander to a flat place with the double-sided adhesive tape.

To mount the rotary commander more securely using the supplied screw

- 1 Attach the mounting hardware to the mounting place (console box, etc.) with the double-sided adhesive tape.
- 2 Screw the mounting hardware on the mounting place.

- 3 Attach the rotary commander to the mounting hardware.

Note

If you use the supplied screw, you have to drill a hole on the mounting place of your car; however, this allows you to mount the commander more securely.

To route the cord

Use the supplied crammer to route the cords so that they do not interfere with your driving.

► Connecting a power source

You can use the following power sources:

- AC power adaptor
- Rechargeable batteries
- LR6 (size AA) alkaline batteries

For the battery life and charging time of the rechargeable batteries, see “Specifications.”

Using the AC power adaptor

Connect the supplied AC power adaptor to the DC IN 4.5 V jack and an AC outlet.

Using the rechargeable batteries

Charge the rechargeable batteries before using them for the first time. You can use only the following rechargeable batteries for your CD player.

- NC-WMAA
- NH-WM2AA

1 Open the battery compartment lid.

(rear)

2 Insert two rechargeable batteries by matching the ⊕ to the diagram in the battery compartment and close the lid.

- 3** Connect the AC power adaptor to the DC IN 4.5 V jack of your CD player and an AC outlet, then press ■/CHG to start charging.

The CD player charges the batteries. The “CHG” indicator turns on in the display, and the indicator sections of  light up in succession. When the batteries are completely charged, the “CHG” and  indicators turn off.

If you press ■/CHG after the charge has already been completed, the  indicator flashes and “Full” appears in the display.

- 4** Disconnect the AC power adaptor.

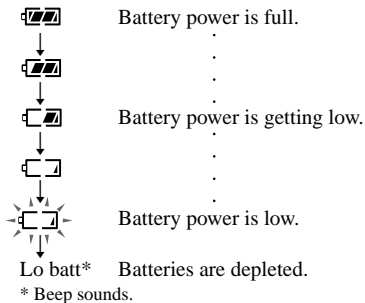

To remove the rechargeable batteries

Remove the batteries as illustrated below.

When to charge the rechargeable batteries

You can check the remaining power of the batteries in the display.

To keep the original battery capacity for a long time, charge the batteries only when they are completely depleted.

Notes

- The indicator sections of  roughly shows the remaining battery power. One section does not always indicate one-fourth of the battery power.
- Depending on operating conditions, the indicator sections of  may increase or decrease.

(Continued)

Using the rechargeable batteries

When to replace the rechargeable batteries

If the battery life becomes shorter by about half, replace the batteries with new rechargeable batteries.

Note on the rechargeable batteries

If the battery is new or has not been used for a long time, it may not be charged completely until you charge and discharge it several times.

Note on carrying the rechargeable batteries

Use the supplied battery carrying case to prevent unexpected heat. If the rechargeable batteries and the metallic objects are contacted, heat or fire may occur due to a short circuit.

To attach the battery compartment lid

If the battery compartment lid is detached by an accidental drop, excessive force, etc., attach it as illustrated below.

Using dry batteries

Use only the following dry battery type for your CD player:

- LR6 (size AA) alkaline batteries

Note

Be sure to remove the AC power adaptor when using the dry batteries.

1 Open the battery compartment lid.

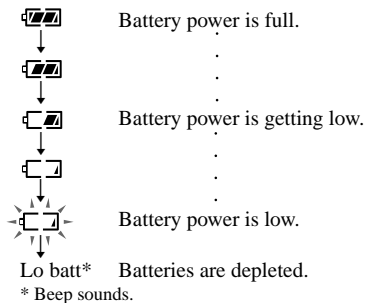

2 Insert two LR6 (size AA) batteries by matching the ⊕ to the diagram in the battery compartment.

To remove the batteries

Remove the batteries in the same way as rechargeable batteries.

When to replace the batteries

You can check the remaining power of the batteries in the display.

When the batteries are depleted, replace both batteries with new ones.

Notes on the power source

Disconnect all power sources when the CD player is not used.

On AC power adaptor

- Use only the AC power adaptor supplied or recommended in “Accessories (supplied/optional).” Do not use any other AC power adaptor. It may cause a malfunction.

Polarity of the plug

- When disconnecting the AC power adaptor from the AC outlet, grasp the adaptor itself. Do not pull it by the cord.
- Do not touch the AC power adaptor with wet hands.

On rechargeable batteries and dry batteries

- Do not charge the dry batteries.
- Do not throw the batteries into fire.
- Do not carry the batteries with coins or other metallic objects. It can generate heat if the positive and negative terminals of the battery are accidentally contacted by a metallic object.
- Do not mix rechargeable batteries with dry batteries.
- Do not mix new batteries with old ones.
- Do not use different types of batteries together.
- When the batteries are not to be used for a long time, remove them.
- If battery leakage occurs, wipe off any deposit in the battery compartment, and install new batteries. In case the deposit adheres to you, wash it off thoroughly.

Precautions

On safety

- Should any solid objects or liquid fall into the CD player, unplug it and have it checked by qualified personnel before operating it any further.
- Do not put any foreign objects in the DC IN 4.5 V (external power input) jack.

On the CD player

- Keep the lens on the CD player clean and do not touch it. If you do so, the lens may be damaged and the CD player will not operate properly.
- Do not put any heavy object on top of the CD player. The CD player and the CD may be damaged.
- Do not leave the CD player in a location near heat sources, or in a place subject to direct sunlight, excessive dust or sand, moisture, rain, mechanical shock, unlevelled surface, or in a car with its windows closed.
- If the CD player causes interference to the radio or television reception, turn off the CD player or move it away from the radio or television.

On handling CDs

- To keep the CD clean, handle it by its edge. Do not touch the surface.
- Do not stick paper or tape onto the CD.

Not these ways

- Do not expose the CD to direct sunlight or heat sources such as hot air ducts. Do not leave the CD in a car parked under direct sunlight.

On headphones/earphones

Road safety

Do not use headphones/earphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headsets at high volume while walking, especially at pedestrian crossings. You should exercise extreme caution or discontinue use in potentially hazardous situations.

Preventing hearing damage

Avoid using headphones/earphones at high volume. Hearing experts advise against continuous, loud and extended play. If you experience a ringing in your ears, reduce volume or discontinue use.

Consideration for others

Keep the volume at a moderate level. This will allow you to hear outside sounds and to be considerate to the people around you.

Maintenance

To clean the casing

Use a soft cloth slightly moistened in water or a mild detergent solution. Do not use alcohol, benzine or thinner.

Troubleshooting

Should any problem persist after you have checked these symptoms, consult your nearest Sony dealer.

Symptom	Cause and/or corrective actions
The volume does not increase even if you press the VOLUME + button repeatedly.	<ul style="list-style-type: none">→ Set the AVLS switch to "NORM." (page 13)→ The headphones/earphones are connected to the LINE OUT jack. Connect them to the /REMOTE jack.
No sound, or noise is heard.	<ul style="list-style-type: none">→ Connect the plugs firmly. (page 6)→ Plugs are dirty. Clean the plugs with a dry soft cloth periodically.
The playing time is too short when powered with the dry batteries.	<ul style="list-style-type: none">→ Check that you are using alkaline batteries and not manganese batteries. (page 22)→ Replace the batteries with new LR6 (size AA) alkaline batteries. (page 22)
The playing time is too short when powered with the rechargeable batteries.	<ul style="list-style-type: none">→ Charge and discharge the rechargeable batteries several times. (pages 20 - 22)
