

802.11g Wireless DSL/Cable Gateway Router
Part # F5D7230au4

[802.11g - compliant upgrade for Australia](#)

WiFi CERTIFIED The Belkin 802.11g Wireless Cable/DSL Gateway Router lets users share files and a broadband Internet connection among their computers-without using networking cables. It features 802.11g technology that makes accessing files and networked peripherals-such as hard drives, printers, CD-ROMs, and DVDs-easier than ever. 802.11g technology provides you with networking speeds nearly five times faster than the current Wi-Fi (802.11b) standard. An integrated, 4-port 10/100Base-T Ethernet switch also allows you to connect wired computers to the network. 802.11g technology is the easiest wireless network to implement. The Gateway Router uses the wireless 802.11g 2.4GHz standard to offer you the widest working range-upto 1800 feet-and greater interoperability in mixed networking environments. 802.11g technology is backward compatible with the 802.11b Wi-Fi networking standard, so it allows you to implement faster wireless technologies in combination with existing 802.11b Wi-Fi networks. An added Turbo Mode will isolate your network from 802.11b wireless clients and allow your network to transmit data at the highest 802.11g data rate.

Advantages

- Creates a network in your home or office without cables
- 6 months of free Parental Control web content filtering-secure your home or office from harmful Internet sites
- Offers backward-compatibility with all 802.11b devices
- Sets up easily with Belkin Easy Install Wizard-automatically detects Internet settings and self-adjusts Router to get you online in under 3 minutes
- Ensures data and network security with wireless 64- and 128-bit WEP encryption

Features

- Uses NAT and SPI firewall to protect network from outside intrusions by hackers
- Works with Macintosh® and PC computers
- Also supports computers running Linux or Unix OS

• **Package Includes:**

802.11g Wireless Cable/DSL Gateway Router
Power Supply
2- User Manual
Quick Installation Guide
RJ45 Networking Cable
Software CD
