Product Highlights

• SMART Picture

With this unique feature, you can adapt the picture to your own preference: you can enhance the contours on a cartoon or suppress the noise from a rental tape. We offer you the possibility to play your tapes the way you like to see them.

• ShowGuard™

From now on you never have to programme your timer or channel presets again after you VCR has been disconnected from the power supply for a long time. Due to ShowGuard the timer programmes and channel presets are stored in a memory forever. You can change the timer programmes and channel presets but you can never lose them.
