Custom Panel Installations

Some Miele dishwashers do not come equipped with a front panel. These dishwashers are designed to accept a custom door panel supplied by the cabinet maker. Miele has a unique panel integration system which allows the dishwasher to align with the surrounding cabinets.

Width: 23 7/16" (598 mm) in all cases

Thickness: 3/4" (19 mm) in all cases

Height: Determined using the following calculation:

$$\text{Panel Height} = \text{HTC} - \text{TKH}$$

HTC = Height to the underside of countertop

TKH = Toe kick height

Note: Control panel is along the top edge of the unit. It is not visible when the unit is closed. A handle **MUST** be located on the front panel in order to open the unit.

Maximum panel height: 30 3/8" (772 mm)

Minimum panel height: 25 5/8" (650 mm)

Maximum panel weight: 21 Pounds (9.5 kg)

GFVI Installations

Miele offers pre-fabricated stainless steel panels for all fully integrated units. These panels are designed for various toe-kick heights and offer a choice of handle options.
