

Our most cost-effective ServoSub – the legacy series Genesis 928 – has been in continuous production and evolution for over 10 years. It is updated with the application of the latest technologies: a new and improved servo-control bass amplifier, better transducers, and a huge toroidal transformer have been introduced since.

Combining first-rate musicality with exceptional bottom-end solidity, it is designed to perform equally well with high-impact home theaters as well as music systems that demand subtlety and precision.

With its servo-controlled system, the G928 integrates exceptionally well with a wide variety of loudspeaker systems, including electrostatic and planar models from other manufacturers. Two pairs of binding posts allow it to be used in either mono or stereo configurations.

The G928 excels in delivering prodigious bass output capability with unparalleled delicacy and articulation in a surprisingly small cabinet. With two 12-inch ribbed-aluminum cone woofers, and a built-in 500W servo-controlled bass amplifier, the G928 plays down to 16Hz, and is capable of delivering 100dB at 20Hz with less than 1% distortion.

LFE Blend™ technology confers great flexibility, allowing the G928 to be used as bass augmentation to a pair of full-range loudspeakers, as well as play the role of a subwoofer delivering LFE for a home theater or multi-channel music system *at the same time*. In addition, a powered, buffered LFE output allows the G928 to drive other subwoofers via single-ended RCA interconnections in multi-subwoofer installations.

Genesis Advanced Technologies 928 ServoSub™

Frequency Response	16Hz to 140Hz, ±3 dB
Amplifier Power Rating	500 watts RMS
LF Transducers	Two 12" ribbed aluminum cone
Controls	Low Pass, Bass gain, LFE gain, Phase Invert
Inputs	High-level with 5-way binding posts Preamp level unbalanced RCA LFE unbalanced RCA
Input Impedance	33K ohms
Outputs	LFE daisy-chain unbalanced RCA
Dimensions	H 16 ½" x W 17" x D 15 ¾" H 419mm x W 430mm x D 400mm
Weight	84.5 lbs (38.4 kg)
Finish Options	Bird's Eye Maple Rosewood High Gloss Black
