DC265 Zoom Digital Camera
WITH PICTURE EASY SOFTWARE

1536 x 1024 Pixels

Pictures taken with KODAK DC265 Zoom Digital Camera.

✔ Photo-Realistic 8" x 10" Prints

1.6 million (1536 x 1024) pixel Megapixel Plus resolution - provides enough detail for spectacularly sharp, colorful, photo-realistic 8" x 10" prints.

✔ 3X Optical Plus 2X Digital Zoom

Gets you closer to your subject. Lens optically extends to 3X with no loss in image quality. Plus, for added flexibility, the camera can digitally zoom in an additional 2X. And you can preview your shot on the LCD, to make sure it's perfect.

✔ Upgrades on the Award-Winner

Everything the DC260 was, and more. Triple the burst performance - 24 sequential pictures at standard resolution, 6 at high. Great for capturing the action. Faster processing for less waiting. 16 MB memory card and longer battery life for added convenience.

✔ Intelligent Camera

DIGITA Scripting gives you the flexibility to do more - telling the camera exactly how to execute complex operations with "point-and-shoot" simplicity. Take multiple pictures at pre-determined intervals. Program settings for different conditions. Or tag images to organize pictures and improve workflow.

✔ USB Support for Faster Downloads

Full MACINTOSH and WINDOWS USB support, for fast, easy picture downloads. Or choose serial, PC card or IrDA connections.

The bottom line on the best camera for business just got better.

The praise for its predecessor, the KODAK DC260 Zoom Digital Camera, was as universal as it was effusive. Impressive? Sure. But just wait'll you see the quantum leaps we've made with the KODAK DC265 Zoom Digital Camera. We're talking faster start up and faster processing. A faster preview rate. So you'll be dazzled sooner by its 1.6 million (1536 x 1024) pixel Megapixel Plus resolution - enough detail for photo-realistic 8" x 10" prints with spectacular color and sharpness. We even tripled its multi-picture burst capability. And gave it better battery life. In other words, it's the same incredible camera. Only better.
