

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING KEEP AWAY FROM WATER

DANGER – Any appliance is electrically live even when the switch is off. To reduce the risk of death by electric shock:

1. Always unplug appliance immediately after using.
2. Do not use while bathing or in a shower.
3. Do not place or store appliance where it can fall or be pulled into a tub or sink.
4. Do not place in, or drop into, water or other liquid.
5. If an appliance falls into water, unplug it immediately. **Do not reach into the water.**

WARNING– To reduce the risk of burns, electrocution, fire, or injury to persons:

1. **This appliance should never be left unattended when plugged in. Do not pull, twist, or wrap line cord around appliance.**

2. This appliance should not be used by, on, or near children or individuals with certain disabilities. Unsupervised use could result in fire or personal injury.

3. Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer. Do not use an extension cord to operate appliance.

4. **Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the appliance to an authorized service center for examination and repair.**

5. Keep the cord away from heated surfaces. **Do not wrap the cord around the appliance.**

6. Do not pull, twist, or wrap line cord around appliance, even during storage.

7. Never block the air openings of the appliance or place on a soft surface such as a bed or couch, where the air openings may be blocked. Keep the air opening free of lint and other debris.

8. Never use while sleeping.

9. Never drop or insert any object into any opening.

10. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.

11. This curling iron and clip are hot when in use. Do not let heated surfaces touch eyes and bare skin.

12. **Do not place the heated curler directly on any surface while it is hot or plugged in. Use the stand provided.**

13. **Do not place the heated iron directly on any surface or on the appliance power cord while it is hot or plugged in.**

14. Do not touch the hot surface of this appliance. Use the handles or knobs.

15. Do not direct hot hair toward eyes or other heat-sensitive areas.

16. Attachments may be hot during use. Allow to cool before handling.

17. While using the appliance, keep your hair away from the air inlets.

18. Do not use with a voltage converter.

SAVE THESE INSTRUCTIONS

OPERATING INSTRUCTIONS

This styling iron is intended for household use. Use on alternating current (60 hertz) only. This unit is designed to be operated at 120 volts A.C.

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

CURLING BASICS

1. Plug the curling iron cord into a standard household electrical outlet (120V). When the red Ready Dot turns white, proper styling temperature has been reached.

2. Section dry hair evenly, and comb each section before winding. Pressing the automatic curl release, place curling iron midway up the hair section, then spread hair evenly between spoon and barrel. Let go of the automatic curl release to hold hair in place. Gently slide curling iron down to hair ends. To avoid crimped ends, make sure they are securely wound under the spoon in the direction of the desired curl.

3. Wind the hair up as far as you want it curled, being careful not to let the iron touch the scalp. Hold in place 8-12 seconds. For tighter, bouncier curls, roll less hair. For looser, free-flowing curls, roll more hair.

4. To remove curling iron, unwind the hair and press the automatic curl release. To set the curl, do not comb or brush hair until it cools.

5. Some experimenting is necessary when first using the curling iron, or when changing to a different hairstyle.

FOR TOUSLED HAIR

Create soft, tousled waves by curling each hair section in a random direction. Then, turn head upside down, shake, and gently scrunch hair with fingers. Bring head back to position and repeat for fullest volume.

WIDE WAVES

Pick up a section of hair and place the curling iron under it close to the scalp, making half a turn downward. Remove the curling iron. Working with the same hair section, start where

you left off and place the curling iron on top of the hair, curling it up half a turn. Proceed down the same hair section, alternating the curl upward and downward. Repeat procedure with remaining sections of hair. For best results, hair should be about 6-8 inches long.

MAINTENANCE

Your curling iron is designed for household use, and is virtually maintenance-free. No lubrication is needed. Keep all vents and openings clear of dirt and dust. If cleaning becomes necessary, disconnect the curling iron from the power source, allow to cool, and wipe exterior with a cloth. If any abnormal condition occurs, unplug the curling iron, allow it to cool and return it to place of purchase or an authorized service representative only for repair. No repairs should be attempted by the consumer.

CAUTION

NEVER allow the power supply cord to be pulled or twisted. Never wrap the cord around the curling iron. Damage will occur at the high flex point of entry into the curling iron causing it to rupture and short. Inspect the cord frequently for damage. Stop use immediately if unit stops or operates intermittently.

STORAGE

When not in use, your curling iron is easy to store. Allow curling iron to cool and store out of reach of children in safe, dry location. Do not jerk or strain cord at plug connections. Do not wrap the cord around the appliance.

**WARNING:
IF YOU THINK
THE POWER IS OFF
WHEN THE SWITCH
IS OFF,
YOU'RE WRONG.**

KEEP AWAY FROM WATER

Everyone knows that electricity and water are a dangerous combination. But did you know that an electric appliance is still electrically live even if the switch is off? If the plug is in the power is on. So when you are not using your appliances, keep them unplugged.

**ALWAYS UNPLUG
SMALL APPLIANCES**

LIMITED ONE-YEAR WARRANTY

Conair will repair or replace (at our option) your unit free of charge for 12 months from the date of purchase if the appliance is defective in workmanship or materials.

To obtain service under this warranty, return the defective product to the service center listed below, together with your purchase receipt and \$3.00 for postage and handling. California residents need only provide proof of purchase and should call 1-800-3-CONAIR for shipping instructions. In the absence of a purchase receipt, the warranty period shall be 12 months from the date of manufacture.

ANY IMPLIED WARRANTIES, OBLIGATIONS, OR LIABILITIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED IN DURATION TO THE 12-MONTH DURATION OF THIS WRITTEN, LIMITED WARRANTY.

Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT SHALL CONAIR BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES FOR BREACH OF THIS OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, WHATSOEVER. Some states do not allow the exclusion or limitation of special, incidental, or consequential damages, so the above limitation may not apply to you.
