

# TV EARS™

Dr. Recommended TV Listening Device

## TV Ears Battery Replacement Instructions

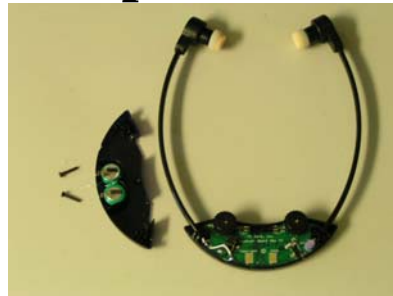

You will need your new battery faceplate, your headset, and a small Phillips screw driver.

### Step 1

Remove the two screws located on the back of the headset.

### Step 2

Turn the headset over and remove the faceplate with the logo and batteries attached.

### Step 3

Screw the new faceplate on the headset

### Step 4

Make sure the headset is turned off. Place the headset on the transmitter (charger) and allow your TV Ears to charge for 8 hours.
