

RM 801

Alkaline rim cleaner

PRODUCT INFORMATION

For washing installations for cars or commercial vehicles.

RM 801 is a highly efficient rim cleaner to remove brake dust.

RM 801 is either sprayed on manually before the vehicle enters the washing installation or applied by the spray system of the washing installation.

Rinse with high pressure immediately after the soak time.

RM 801 is strongly alkaline and does not attack uncoated concrete floors and steel drive-in wheel troughs.

Application instructions and processing

Prespray unit - manual:	Dilution (RM + water) 1 + 9 10 %
Dosing equipment Washing installation	Dilution (RM + water) 1 + 9 ... 1 + 4 10 % ... 20 %
Soak time	10 seconds to 1 minute maximum
Application temperature	use only cold
Consumption with concentrate / car	approximately 20 ml
Prespray unit - manual:	Dilution (RM + water) 1 + 9 10 %

Special notes:

Do not let it dry up!

Never spray on hot rims, precool with water if necessary !

Never apply on aluminium rims that are uncoated or where the varnish is damaged, or

on other predamaged rims or painted parts

Observe the manufacturer's instructions with special rims!

Store in a frost-free environment!

pH value in the concentrate approximately 13.5.

RM 801 is degradable to EEC 648/2004.
