

COBY®

PORTABLE CD PLAYER

CX-CD314

USER GUIDE

NAME OF PARTS

BATTERY OPERATION (BATTERIES NOT INCLUDED)

Your unit operates on two(2)AA size alkaline batteries. Open the CD cover and insert the batteries in the battery compartment following the polarity diagram located inside.

CAUTION

Hearing experts advise against the constant use of personal stereos played at high volume. Constant high volume use can lead to hearing loss. If you experience ringing in the ears or hearing loss, discontinue use and seek medical advice.

HANDLING DISCS

To remove the disc from its storage case, press down on the center of the case and lift the disc out. Hold it carefully by the edges as shown below.

- Insert the disc into the unit with the label of the disc facing UP.
- Gently wipe the disc using a soft cloth from the center to the outer direction to remove dust, fingerprints or any other particles on the disc surface. Never use chemicals, such as record sprays, anti-static sprays, benzene or thinners to clean the CD. These chemicals can damage the disc surface permanently.
- To avoid serious scratches on CD, keep them in the cases after each use. Scratches can cause the laser pick-up skip in the future play.
- Do not place stickers or write anything on the disc.

MAINTENANCE AND CARE

- Read the instruction manual before operating this unit.
- Do not expose the unit to high temperature or humidity. Use dampened soft cloth to clean the unit. Do not use strong detergent or solvent to clean the unit.
- Consult your dealer if you are ever in doubt about the installation, operation or safety of your equipment

DBBS FUNCTION

DBBS FUNCTION

The Dynamic Bass Boost System(DBBS) enhances the low frequency(Bass) response of the output. Set the Volume to low listening level and set DBBS switch to ON.

Note: Some CD'S with DBBS may exceed the bass response capacity and can cause distortion. To avoid this, do not play DBBS in high volume. Playing DBBS in high volume may cause damage to the headphone and more importantly, to your hearing.

SPECIFICATIONS

CD Play Section

Frequency Response.....20 ~ 20,000Hz
 Wow and Flutter.....Below Measurable Limits
 Sampling Rate.....8 times over sampling
 D/A Converter.....1-Bit

General

Maximum Output (Stereo Headphone...15mW+15mW(32ohm)
