- **Weight incl. Packaging:** 5.4 kg

### Power

- **Battery type:** AA, LR6
- **Battery voltage:** 1.5 V
- **Mains power**
- **Number of batteries:** 2

## Product highlights

### Large LCD

The large LCD text display guides you through control options with ease, while display backlighting simplifies controlling your complete home entertainment environment in the dark. Stay informed and in control.

### Quartz controlled clock

#### Alarm Time Display

Alarm Time Display always shows both the current time and the time that your alarm is set to go off. The constant display eliminates the need to press a button in order to check whether the alarm has been set and at what time it will go off. Alarm Time Display constantly reassures you that your alarm is set correctly and that it will wake you up at the intended time.

### Gentle Wake

Gentle Wake is a customizable volume control for your alarm that gently wakes you up at your preferred volume level instead of jolting you awake. Simply set 'start' and 'end' volume levels that you feel comfortable with and your CD, radio or buzzer alarm will gently bring you out of sleep, with an increasing volume, to a state of wakefulness. Gentle Wake allows you to easily personalize the volume range for your alarm.

### Sleep Timer

Sleep Timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 1 hour) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.

### Repeat alarm
