Charging the Battery

About batteries that you can use with this unit

Supplied battery or dedicated optional batteries (DMW-BCK7E) can be used with this unit.

It has been found that counterfeit battery packs which look very similar to the genuine product are made available to purchase in some markets. Some of these battery packs are not adequately protected with internal protection to meet the requirements of appropriate safety standards. There is a possibility that these battery packs may lead to fire or explosion. Please be advised that we are not liable for any accident or failure occurring as a result of use of a counterfeit battery pack. To ensure that safe products are used we would recommend that a genuine Panasonic battery pack is used.

• Use the dedicated charger and battery.

Charging

- The battery is not charged when the camera is shipped. Charge the battery before use.
- · Charge the battery with the charger indoors.

Attach the battery paying attention to the direction of the battery.

Connect the AC cable.

• Disconnect the charger from the electrical socket and detach the battery after charging is completed.

About the [CHARGE] indicator

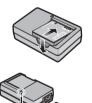

The [CHARGE] indicator turns on:

The [CHARGE] indicator (A) is turned on during charging.

The [CHARGE] indicator turns off:

The [CHARGE] indicator (A) will turn off once the charging has completed without any problem.

- When the [CHARGE] indicator flashes
 - The battery temperature is too high or too low. It is recommended to charge the battery again in an ambient temperature of between 10 °C to 30 °C.
 - The terminals of the charger or the battery are dirty. In this case, wipe them with a dry cloth.
