- 12NC 9082 100 00509
- EAN code 87 10353 01612 3

Inner carton NONE

Outer carton

- Contents 6
- Dimensions (mm) 180 x 285 x 155
- Weight (kg) 1.5
- EAN code 87 10101 87200 1

Ideal replacement for all Philips TV remote controls

For lost or broken Philips remote controls, this is the ideal replacement for all remote controls manufactured since 1980. It controls all the original TV functions.

Pre-programmed for Philips (RC-5 and RC-6) TVs and VCRs

Because it's pre-programmed for all Philips TVs and VCRs, no set up is required. It works with the recent Philips RC-6 and original RC-5 infrared standards for TV, and the RC-5 standard for VCR straight out of the pack!

Operates all the original functions, even the new

The handy remote control not only provides total control of original TV functionality, but it also covers the primary VCR functions. It even offers a whole host of new ones like for example, Wide screen settings, Dual screen, Menu set-up control, Active control and Incredible surround. A VCR/shift-key doubles the remote control's functionality. Just keep it pressed, and the complete functionality changes.

Five programmable keys provided

If there are any other exotic or less frequently used functions on the TV or VCR that are not in the remote control's standard set, they can be simply programmed on any of the five user-programmable keys.

Ergonomic design with familiar layout

And because it has the same shape as original TV remote controls, with the same icons and ergonomic key layout, it feels familiar straight away. All functions are clearly visible on the remote control to make it easy to select the one you want to use.
