GPX

D2816 DVD Player

At a glance

- Progressive Scan DVD

- Plays DVD, CD & JPEG Discs

- Component Video & S-Video Outputs

- Left/Right RCA Audio & Digital Coaxial Audio Outputs

- Remote Control

Benefits

High-End Features
The progressive scan feature and the component video outputs ensure that you'll see the best possible picture, while the digital coaxial output enables you to connect to a surround sound decoder for an even more exciting home theater experience.
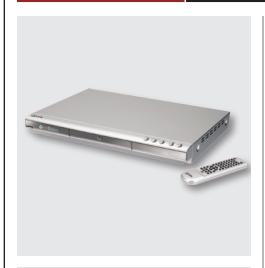

More Than Movies
In addition to playing movies, you can play your favorite CDs, and even view JPEG photo slide shows. Now that's entertainment!

Extras
A vacuum fluorescent display and auto-switching dual power set this player apart.

Specifications:
