

THRU-THE-WALL AIR CONDITIONERS

COOL ONLY | HEAT PUMPS | ELECTRIC HEAT

Friedrich

Perfect for new construction, retrofits and remodeling

WallMaster®

The Most Energy Efficient Solid-side Air Conditioner Installs in existing 27" sleeves

COOLING ONLY, HEAT PUMP & ELECTRIC HEAT

- High efficiency operation saves on energy costs
- Residential/commercial applications
- Mounts flush with the exterior wall for a neat appearance
- A high efficiency replacement for 27" sleeves including Fedders A and B*. Sleeve measures 27" W x 16 3/4" H
- Ideal for thicker wall installations, where side fins don't fit
- Easy-to-reach, top mount controls
- Three-speed fan
- Efficient rotary compressor
- Easy-to-clean filter

REMOTE CONTROL FEATURES

- 24 hour programmable timer
- Money Saver® setting saves energy by cycling the fan with the compressor
- Smart Fan auto-adjusts fan speed to maintain desired temperature
- Auto-memory backup

REMOTE CONTROL	24-HOUR TIMER	MONEY SAVER FEATURE	SMART FAN

Sleeve Dimensions	Friedrich WSC Sleeve	Fedders A Sleeve	Fedders B Sleeve*
Height (inches)	16 3/4	16 3/4	16 3/4
Width (inches)	27	27	27
Depth (inches)	16 3/4	16 3/4	19 3/4

Units are shown installed in WSC sleeve (sold and shipped separately)

*Installation in Fedders B sleeve requires a baffle kit. See BAK accessory under accessories.

THRU-THE-WALL units mount flush with exterior walls for a sleek appearance, as well as unobstructed window views. (Wallmaster WSC sleeve shown with architectural grille. Uni-fit grille has different appearance.)

Uni-fit

Universal Fit for Easy Replacement
Chassis installs into existing 26" sleeves

COOLING ONLY & ELECTRIC HEAT

- Rotary compressors provide quiet, dependable performance
- Six-way air flow control
- Stale air exhaust
- Auto re-start
- Washable/reusable filter
- Seacoast protection

HEAT/COOL MODELS feature mechanical controls, two cooling speeds, two heating speeds, plus one fan-only setting.

COOLING MODELS feature electronic controls with remote control, Money Saver® setting that saves energy by cycling the fan with the compressor and three cooling/three fan-only speeds.

REMOTE CONTROL FEATURES (cool only models)

- 12 hour programmable timer
- Money Saver® setting saves energy by cycling the fan with the compressor

Sleeve Dimensions	Friedrich USC Sleeve	GE	Amana	Whirlpool/Fedders	Frigidaire
Height (inches)	15 17/32	15 5/8	15 5/8	15 3/4	15 7/16
Width (inches)	25 7/8	26	26	26 3/4	25 7/8
Depth (inches)	16 23/32	16 7/8	16 7/8	15	18

Units are shown without USC sleeve (USC sleeves sold and shipped separately)

Commercial and residential applications

When should you
install a solid side
sleeve?

SOLID SIDE wall sleeve
allows for installation in thick
exterior walls where the
installation of room air units
with side vents would effect
performance and may even
void the warranty.

ROOM AIR CONDITIONER
Blocked side vents restrict air flow

FRIEDRICH THRU-THE-WALL
Solid-side sleeve (no side vents)

WallMaster® Exterior Grilles

WSC Sleeve/Standard Grille WSC Sleeve/Optional Architectural Grille, AG

IMPORTANT:

Operating the air conditioner with incorrect rear grille or without Baffle Adapter Kit (on 19 3/4" deep sleeve) will recirculate discharge air and cause compressor overload to trip.

CORRECT Vertical Louvers

INCORRECT Horizontal Louvers

Installation Accessories (WallMaster only)

DK / Drain Kit

Installed at the back of the unit and allows for attachment to permanent condensate disposal system, if disposal is necessary or desired.

SB / Sub Base

Used as a base for the unit when it is desired to place the cord and receptacle within the installation, or simply as a base for the unit when mounted low in the wall.

IDK / Internal Drain Kit

New construction applications where a condensate drain system has been built into the wall interior.

BAK / Baffle Adapter Kit

Necessary when installing in a sleeve deeper than 16 3/4" deep, such as Fedders B sleeve (19 3/4" deep).

Uni-fit® Exterior Grilles

USC Sleeve/Standard Grille

USC Sleeve/Replacement Grille*

STANDARD GRILLE – Expanded aluminum

For use with USC sleeve. (Ships with USC sleeve).

*REPLACEMENT GRILLE – High-tech plastic

For use on existing sleeves without any grille. (Ships with chassis).

IMPORTANT NOTE:

When installing into an existing sleeve, consult Installation Section of your Installation/Operation Manual to determine whether or not the grille needs to be replaced and/or a baffle adapter should be used.

WallMaster Heat Pump heating information (shown in red) indicates heat pump heating performance. WallMaster Electric Heat heating information (shown in red) indicates electric heat strip performance. For WallMaster Heat Pump electric heating performance refer to corresponding WallMaster Electric Heat model.

WALLMASTER HEAT PUMP

HEATING PERFORMANCE

Change-over from heat pump operation to resistance operation on models indicated is automatic at a preset outside ambient temperature of approximately 35°F.

Calculate the heat loss of the space to be heated. As long as the heat loss does not exceed the resistance heating capacity rating of the unit, the heating performance will be satisfactory.

Note: all models will produce condensate. If condensate disposal is desired, an optional drain kit is available.

DEFROST CONTROL: Initiated at 20°F (outdoor coil temperature) and terminated at 43°F (outdoor coil temperature). During defrost, the compressor stops and the electric heat starts, then operates with the fan to maintain indoor comfort. Below 43°F, the unit remains in electric heat mode. During electric heat mode, the unit will achieve the following ratings: 11000/9100 BTU/h, 16.0/14.7 amps, and 3550/2950 watts.

DEFROST DRAIN: Drain automatically opens at approximately 50°F to prevent condensate from freezing inside drain pan.
