## OPERATING INSTRUCTIONS

1. Connect the iRange Station with the AC adaptor and switch the unit on.

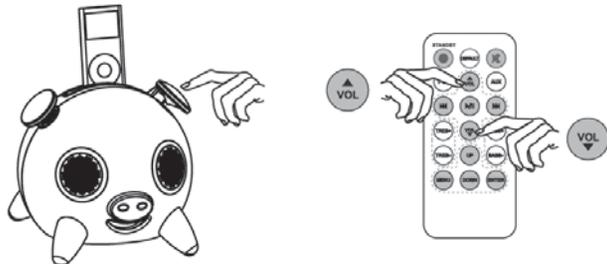

2. iPod connection: Connect the iPod to the iRange Station. The iRange Station will choose iPod as a current audio source automatically, otherwise press "iPod" button on the remote control.

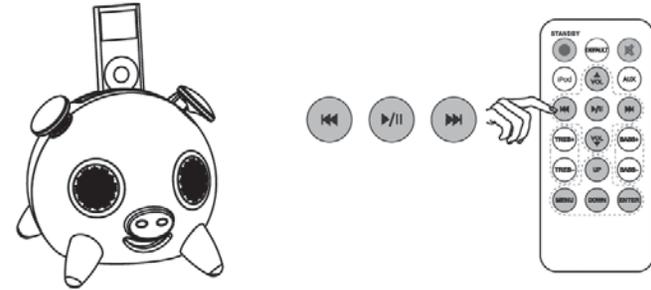

**Attention:** Your speaker is on the "On" position prior to docking your iPod.

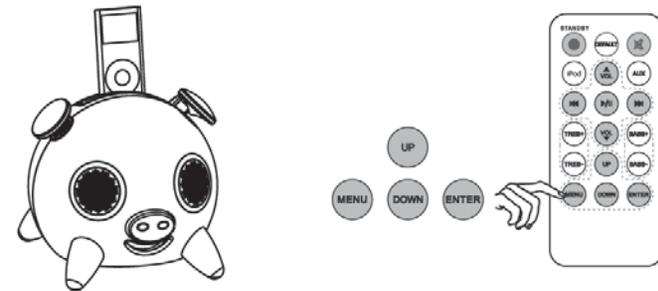

3. To adjust volume: touch the left ear of the iRange Station to reduce the volume and the right ear to increase the volume. (NOTE: this is touch sensitive and you do not need to press the ears hard), alternatively press "VOL+" / "VOL-" on the remote control. When the volume is adjusted to MAX or MIN the light (in the iRange Docking Station mouth) will stop flashing.

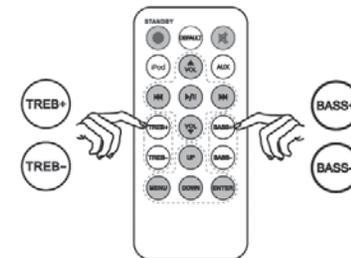

4. To select music from the iPod, please press "◀◀" / "▶" / "||" / "▶▶" on the remote control to select Preview, Play, Pause and Next.

5. If you want to navigate the menu on the iPod, please press the "MENU" button on the remote control to activate, press "UP" / "DOWN" to select then press "ENTER" to confirm.

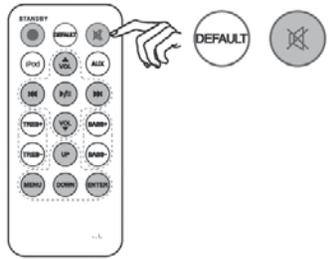

6. Press "TREB+" / "TREB-" and "BASS+" / "BASS-" to adjust the level of the "TREB" and "BASS".

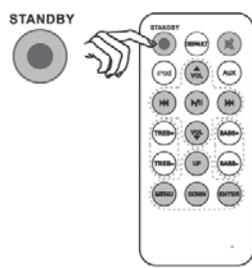

# SPK-IPT01 User Manual

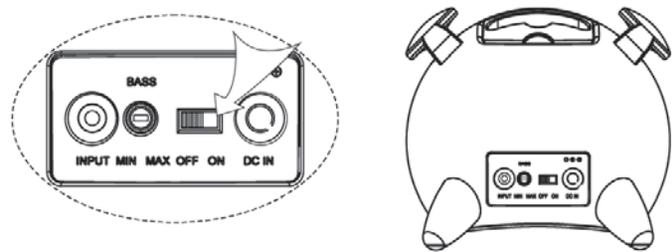

7. Press the "DEFAULT" button for background music. Press the "MUTE" to mute. Press "DEFAULT" or "MUTE" again or the volume button to resume normal play.

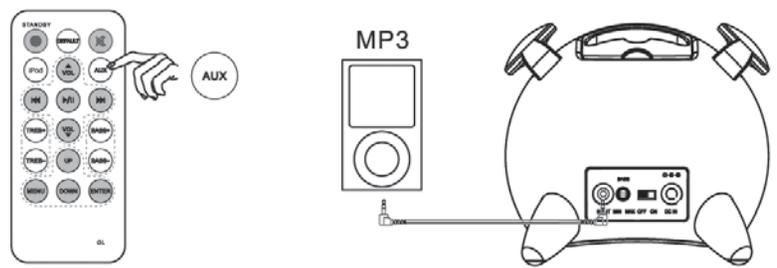

8. The "STANDBY" button will switch the AIP unit on and will also put the unit into standby mode. This will be indicated by a flashing light.

9. After using the AIP unit, please flick the switch to the "OFF" position at the back of the unit, then remove external devices.

10. To use an external music source (i.e. Laptop). Connect it to the AIP input jack and press the "AUX" button on the remote. If you don't connect iPod on AIP, the AIP will choose the external source automatically.

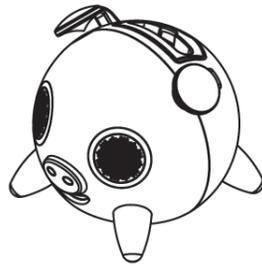

**Note:**  
This AIP unit is compatible with iPod touch, iPod classic, iPod nano, iPod 5th gen, iPod 4th gen, iPod mini.
