WARNINGS AND PRECAUTIONS

- **CAUTION:** Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- **WARNING:** Lithium ion batteries, like all rechargeable batteries are recyclable and should be recycled or disposed of in normal household waste. Contact your local government for disposal or recycling practices in your area. They should never be incinerated since they might explode.
- Battery shall not be exposed to excessive heat such as sunshine, fire or the like.

FCC Warnings

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Documentation

POWERING THE UNIT

BUILT-IN RECHARGEABLE BATTERY

The Built-In Rechargeable Battery provides approximately 6 hours of audio playback and 2 hours of video playback on a single full charge.

The built-in battery can be charged by connecting the unit to a powered computer using the Mini-USB Connection.

VIDEO CONVERSION

■ VIDEO CONVERSION SOFTWARE

Video conversion software is included with the unit.

Install the software onto a computer to convert video files to a playable format.

After conversion, the files can be loaded directly onto the unit.

■ FEATURES

File Support

AVI(*.avi), WMV(*.wmv, *.asf), MPEG1(*.mpg), QuickTime(*.mov, *.qt), MPEG2(*.vob), RealMedia(*.rm, *.rmvb,…), MPEG4, 3GP(*.3gp)

DirectX 9.0, Media Player 9.0, and other codecs based on DirectShow must be installed to support all media types.

Preview
Video Preview for all supported media types.

Time Selection to Convert
Select a time period to convert (from a specified time point to another) for all supported media types.

Background Music Support
Replace the original audio of a video clip with a music file. Supported music types: WAV(*.wav), MP3(*.mp3), WMA(*.wma).

System Requirements
Win98 SE, WinME, Win2000, WinXP, Vista

■ CONVERTING A VIDEO FILE (ADVANCED)

1. Set configuration files.

2. Input Video & Preview

3. Select an output directory.

4. Select the output frame size

5. Select the output video quality (frame rate)

6. Select the output audio quality

7. Select the output Video ratio

8. Select a music file to replace the original background audio of the input video clip. (Go to step 9 if you want to keep the original audio of the video input clip.)

9. Select a time period to convert (Go to step 10 if you want to convert the whole video input clip.)

10. Click on "MTV Preview" check box to preview MTV.

11. Start Conversion

██ **MSC MODE (PREFERRED METHOD)**

1. Connect the unit to a computer (Windows, Apple, or Linux) using the Mini-USB Connection and the included USB Cable.

2. Once connected, the unit will show up on the connected computer as if it were a connected USB thumb drive, external hard drive, or memory card.

3. Drag and drop the desired audio, video, photo, or ebook files into the unit's drive location on the connected computer.

    File Compatibility: MP3, WMA, WMV, MTV, WAV, JPEG, BMP, and TXT

4. After the files are loaded onto the unit, it can be disconnected from the computer.

██ **WINDOWS MEDIA PLAYER**

For instructions on loading files onto the unit using Windows Media Player, visit:

http://www.microsoft.com/windows/windowsmedia/knowledgecenter/howtocenter.aspx

To access the Main Menu, press and hold the **Menu Button**.

Press the Volume Buttons to adjust the volume of the unit.

Press the Volume Buttons to move through the menus on the unit.

Press the Volume Buttons to cycle through pages on an Ebook.

Press the Volume Buttons to skip between photos in the photo player.

GREEN INITIATIVE

Environmental Commitment to 'Protect for Today and Sustain for Tomorrow'

2009 marks the official launch of DPI, Inc.'s corporate campaign for a greener and cleaner world. DPI and its four brands, iLive, WeatherX, Capri, and GPX, are building upon environmental initiatives introduced at all of their facilities to help formulate and sustain significant and important conservation efforts within its manufacturing and marketing communities. In addition to targeting and selecting energy efficient product features, and structuring 'green office' procedures, other initial program efforts include:

- Reduction of all packaging sizes
- Recyclable plastics for clamshell packages, with a plan to eventually replace plastic with recyclable paper
- Recycled fiber board in place of the polyfoam in packing boxes
- Recycled plastics in place of the virgin material in product construction
