

MovieStick™ Camera & Recorder

Great for social networking websites!

Battery lasts over 2 hours!

- It's so tiny and lightweight (0.68 oz / 20 grams)
- 'Play and plug' operation is easy to use by all ages
- Records up to 2.5 hours of video or still photos with enviro-friendly rechargeable battery
- Easy back-up to a 2GB Micro SD card (sold separately) for viewing on your PC, mobile/cellphone, camcorder or TV
- Keep it on or in your pocket, bag, handbag, briefcase
- Great for family fun and socialising: attach to toys, bikes, cars, boats, take on trips, to parties, get-togethers, bbqs, play your own spy games and more.
- A perfect solution if you have a Blackberry, Palm, PDA, Handheld, mobile or cell phone without a camera

MovieStick™ Camera & Recorder

One of the world's smallest digital video recorders! With a built-in camera and microphone, it's the alternative to a hand held Dictaphone or camcorder. Records to removable micro SD memory cards, video is easily offloaded to a computer for storage or viewing. Rechargeable battery allows for continuous operation for up to 2 hours. This is one of the most compact micro DVR's ever offered!
