VCT-1100RM

Sony Corporation ©1997 Printed in Japan

WARNING

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

Features

The VCT-1100RM is a tripod for video camera recorders and features:

- A Remote Commander built in the pan/tilt handle which allows you to operate (zooming or recording) the video camera recorder with a remote control jack.
- A ball-level for quick and easy level adjustment.
- Smooth panning/tilting with the oil-cylinder pan/tilt handle.
- The built-in counterbalance mechanism to prevent the tripod from toppling over.

Using the Tripod

- After recording, slide the recording standby switch of pan/tilt handle to LOCK. If you leave it on STANDBY, the battery will wear down.
- Make sure that you hold on to the video camera recorder when removing it. The camera mounting shoe automatically comes off the

tripod when you unlock the camera mounting shoe lock lever, so the video camera may fall down, if you are not holding it.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

Cleaning

Clean the tripod with a soft cloth lightly moistened with a mild detergent solution. After using the tripod at a location subject to sea breeze, be sure to wipe it clean with a dry cloth.

Identifying the Parts

- A**
- 1 Camera mounting screw
- 2 Pin
- 3 Camera mounting shoe
- 4 Tilt lock knob
- 5 Pan lock knob
- 6 Ball-level lock knob
- 7 Level
- 8 Tripod head
- 9 Camera mounting shoe lock lever
- 10 Stay
- 11 Ferrule (with a spike)
- 12 Leg holder
- 13 Pan/tilt handle lock screw
- 14 Remote plug holder
- 15 Remote control cord
- 16 Recording standby switch
- 17 Recording start/stop button
- 18 Zoom lever
- 19 Pan/tilt handle
- 20 Leg length adjustment lock lever

Caution

- After recording, slide the recording standby switch of pan/tilt handle to LOCK. If you leave it on STANDBY, the battery will wear down.
- Make sure that you hold on to the video camera recorder when removing it. The camera mounting shoe automatically comes off the

- tripod when you unlock the camera mounting shoe lock lever, so the video camera may fall down, if you are not holding it.

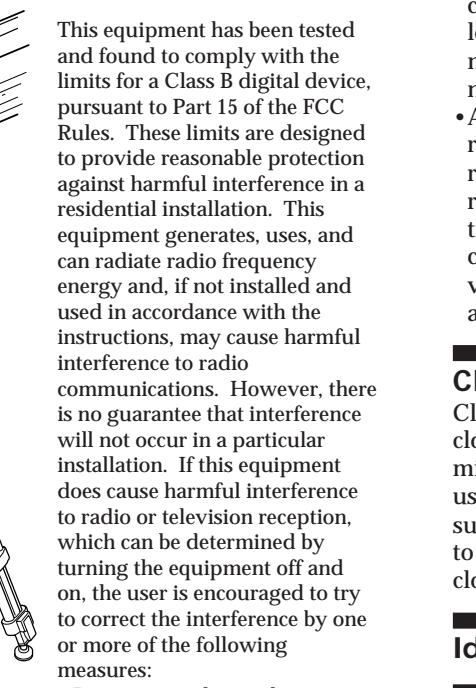

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

Identifying the Parts

- B**
- 1 Remove the leg holder.
- 2 Spread the legs until the tripod becomes stable.
- 3 Adjust the height of the tripod by adjusting the leg length.

First use the upper part of the legs. If the tripod is not high enough, use the lower part of the legs also. To adjust the leg length:

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- After using the tripod, remove the video camera recorder, close the legs and replace the pan handle to the original position. Never carry the tripod with the video camera recorder attached.

- <ul style="list-style-type: none

Panning and Tilting

D Adjusting the position of the pan/tilt handle

To adjust the height:

- ① Loosen the pan/tilt handle lock knob.
 - ② Adjust the angle of the pan/tilt handle.
 - ③ Tighten the pan/tilt handle lock knob.
- You can turn the pan/tilt handle to the left or to the right at your convenient position.

E Panning/Tilting

To pan:

- ① Loosen the pan lock knob. Adjust the position of the video camera recorder by moving the pan/tilt handle.
- ② Tighten the pan lock knob.

To tilt:

- ③ Loosen the tilt lock knob. Adjust the position of the video camera recorder by moving the pan/tilt handle.
- ④ Tighten the tilt lock knob.

Note

Do not adjust torque weight using the pan lock knob or the tilt lock knob. Doing so may cause a malfunction. Do panning or tilting after loosening each lock knob properly.

Using the Remote Commander

Refer to the operation manual of the video camera recorder for further information.

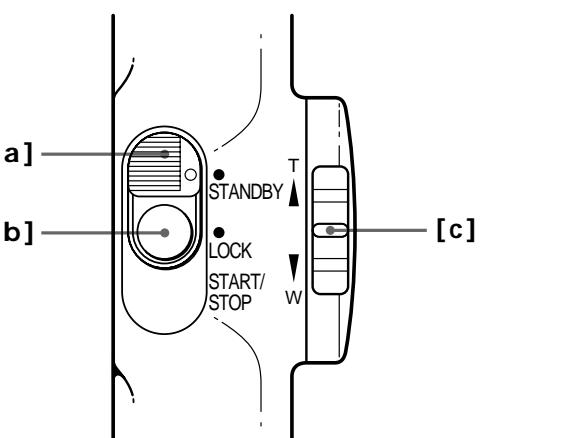

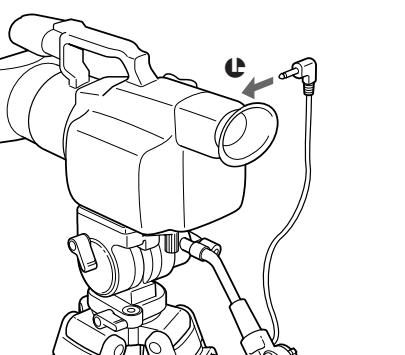

F Recording

- 1 Connect the remote plug securely to the Remote **[c]** control jack of the video camera recorder.

- 2 Set the power switch of the video camera recorder to "CAMERA" and then to recording standby mode.

- 3 Slide the recording standby switch **[a]** of the pan/tilt handle to STANDBY firmly until it clicks.

- 4 Press the START/STOP button **[b]** to start recording.

Panoramiquer et incliner

D Réglage de la position de la poignée de panoramique/inclinaison

Pour régler la hauteur :

- ① Desserrez la molette de verrouillage de la poignée de panoramique/inclinaison.
- ② Ajustez l'angle de la poignée de panoramique/inclinaison.
- ③ Serrez la molette de verrouillage de la poignée de panoramique/inclinaison.

- Vous pouvez tourner la poignée de panoramique/inclinaison à votre guise vers la gauche ou vers la droite.

E Panoramiquer/Incliner

Pour panoramiquer :

- ① Desserrez la molette de verrouillage de panoramique.
- ② Ajustez la position du caméscope en déplaçant la poignée de panoramique/inclinaison.

- ③ Serrez la molette de verrouillage de panoramique.

Pour arrêter la prise de vue, appuyez sur la touche START/STOP.

Pour reprendre la prise de vue, appuyez à nouveau sur la touche.

Zoom

Tournez le levier de zoom **[c]** vers le côté T pour une prise de vue au téléobjectif (le sujet semble plus proche) ou vers le côté W pour une prise de vue grand-angulaire (le sujet semble plus éloigné). Suivant le modèle de votre caméscope, la vitesse de zoom varie en fonction de l'amplitude avec laquelle vous actionnez le levier de zoom.

Remarque

Ne réglez pas les contrepoids à l'aide de la molette de verrouillage de panoramique ou la molette de verrouillage d'inclinaison. Vous risqueriez sinon de provoquer un dysfonctionnement.

N'effectuez les réglages de panoramique et d'inclinaison qu'après avoir desserré correctement chacune des molettes de verrouillage.

Pour terminer la prise de vue

Faites coulisser le commutateur de veille d'enregistrement **[a]** sur LOCK. Le caméscope se met hors tension.

This mark indicates that this product is a genuine accessory for Sony video products. When purchasing Sony video products, Sony recommends that you purchase accessories with this "GENUINE VIDEO ACCESSORIES" mark.

Panoramización e inclinación

D Ajuste la posición de la palanca de panoramización/inclinación

Para ajustar la altura:

- ① Afloje la rueda de bloqueo de la palanca de panoramización/inclinación.
- ② Ajuste el ángulo de la palanca de panoramización/inclinación.
- ③ Apriete la rueda de bloqueo de la palanca de panoramización/inclinación.

Dimensions

Altura máxima :
Approx. 1.505 mm (59 3/8 pulgadas) (pies desplegados a 25 grados)

Altura mínima :
Approx. 700 mm (27 5/8 pulgadas) (pies desplegados),
Approx. 735 mm (29 pulgadas) (pies cerrados)

Masa

Approx. 3,2 kg (7 lb 1 oz)

Ce symbole indique que ce produit est un accessoire d'origine conçu pour les appareils vidéo Sony. Lorsque vous faites l'acquisition de produits vidéo Sony, Sony vous conseille d'acheter des accessoires identifiés par la mention "GENUINE VIDEO ACCESSORIES".

Inclinación:

- ③ Afloje la rueda de bloqueo de inclinación. Mueva la palanca de panoramización/inclinación para ajustar la posición de la videocámara.

- ④ Apriete la rueda de bloqueo de inclinación.

Nota

No ajuste el peso de torsión con la rueda de bloqueo de panoramización o inclinación. Si lo hace, es posible que provoque problemas de funcionamiento.

Realice la panoramización o inclinación una vez que haya aflojado todas las ruedas de bloqueo correctamente.

Zoom

Gire la palanca del zoom **[c]** hacia el lado de la T para telefoto (el sujeto aparece más cerca), y hacia el lado de la W para gran angular (el sujeto aparece más alejado). En función del tipo de videocámara, si gira la palanca del zoom en mayor medida, la función de zoom se realizará con más rapidez.

Para finalizar la grabación

Deslice el interruptor del modo de espera de grabación **[a]** a la posición LOCK. La alimentación de la videocámara se desactivará.
