*microSDHC memory cards are only compatible with devices that support the microSDHC format. Even when a card adapter is used, microSDHC cards are not backwards compatible with standard SD, miniSD, and microSD devices. Please check with the manufacturer of the host device before using SDHC-compliant cards. Failing to do so may result in the card's failure to operate in the device, card damage, and/or data loss.

**Based on 4GB capacity, 2-megapixel JPEG, 128-kbps MP3 audio, 389-kbps MPEG4-SP video. Actual number of photos, songs, and minutes will vary depending on camera/device model, format resolution and compression, usable capacity, and bundled software.

Actual capacity available for picture storage will vary and may be less than full megabyte capacity. 1GB equals 1 billion bytes.
