SDHC High Performance Memory Card

Industry leaders Lexar and Kodak have joined forces to deliver a comprehensive selection of memory cards in various formats, speeds, and capacities. These cards deliver the brand quality that Kodak customers have come to expect, teamed with the advanced performance of Lexar memory card technology.

Secure Digital High Capacity (SDHC) memory cards are designed for use with SDHC-enabled devices, including digital cameras, MP3 players, and more. The KODAK SDHC High Performance Memory Card offers high-speed, high-capacity storage, ideal for rapid-fire picture taking and capturing TV-quality video with an SDHC-enabled device.* The KODAK SDHC High Performance Memory Card is available in 4GB and 8GB capacities.

High-Capacity Speed and Performance

High-Capacity Performance. The KODAK SDHC High Performance Memory Card allows you to take many photos in quick succession, as well as fully leverage the video capabilities of your SDHC-enabled point-and-shoot digital camera. The KODAK SDHC High Performance Memory Card gives you the extra storage capacity to capture that perfect moment.

Video Versatility. The KODAK SDHC High Performance Memory Card is designed for a range of popular uses, and is engineered for smooth, TV-quality video capture at 30 frames per second, while also allowing for faster picture capture. The card is ideal for use with SDHC-enabled KODAK or other digital cameras that are 4 megapixels and higher.

The Best of Both Worlds. Enjoy the combined benefits that KODAK brand quality and Lexar technology deliver. And you can keep it Kodak by adding the KODAK SDHC High Performance Memory Card to your existing line-up of other trusted KODAK products, while enjoying the advanced, innovative memory card technology provided by Lexar. Whether you're rapidly shooting a multitude of photos or enjoying the video capabilities of your SDHC-enabled point-and-shoot digital camera, the KODAK SDHC High Performance Memory Card is perfect for capturing and securing your most treasured memories.

HIGH SPEED
