Capacities:

4GB
8GB

High-Capacity, High-Speed Performance

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities, which include innovative features and valuable free software. With so many options, it's easy to find the perfect Lexar memory card to fit your workflow needs.

Trusted by professional photographers, the Lexar Professional 133x Secure Digital™ High Capacity (SDHC™) memory card is designed for sustained, rapid-fire picture taking, and provides high-capacity, high-speed performance and reliability to bring out the ultimate performance in your SDHC-enabled DSLR equipment. The Lexar Professional 133x SDHC card is available in 4GB and 8GB capacities.*

Get the Most Out of Your Memory Card

Amazing Speed. The Lexar Professional 133x SDHC card is ideal for anyone who demands optimal performance from both the memory card and SDHC-enabled DSLR camera they use. This high-speed card is capable of minimum sustained write speeds of 20MB per second, which means your camera won't stop until you do. The incredibly fast read/write speeds of the Lexar Professional SDHC card fully leverage your camera's high-speed processor and accelerate image download times, making it a top choice among professional photographers.

Includes Valuable Software. The Lexar Professional 133x SDHC card includes Lexar Image Rescue™ 3 software, which reliably recovers most photo, video, and audio files, even if they've been erased or the card has been corrupted.** The software can also reformat the card, securely delete images, and report on the overall condition of the card, so you can ensure it's in perfect working order for your next shoot. What's more, you can sketch, paint, and transform your photos into stunning works of art with a 6-month subscription to Corel® Painter™ Essentials 4. Both are available for free download with purchase of the card.***

Outstanding Performance and Reliability. Capable of sustained read/write speeds of 20MB per second, the Lexar Professional SDHC card speeds up capture times, improves download times, and gives you faster recycle time to eliminate waiting between shots. Lexar Professional cards come with a limited lifetime warranty and a free, dedicated, customer support line. With large capacities and valuable free software, the Lexar Professional 133x SDHC card is the ideal all-in-one solution to your storage needs.

*SDHC cards are designed for use in SDHC-enabled devices and are not backwards compatible with standard SD legacy devices.

**Image or other data recovery is not 100% guaranteed.

***Software offering may vary depending on product ship date and store. Please check product packaging for included software offerings.

The Lexar "x" speed rating describes minimum write speed capability where x=150KB/sec sustained write speed.

Actual usable memory capacity may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes.
