8GB

High-Speed Cards for High-Speed Applications

Lexar offers a complete line of award-winning memory cards in various speeds, formats, and capacities, which include innovative features and valuable free software. Designed for photo enthusiasts, Lexar speed-rated cards are individually performance tested before they ship, ensuring quality and performance and providing a higher level of confidence, whether you're on an important shoot or snapping family photos on vacation.

The Lexar Platinum II CompactFlash[®] (CF) memory card is a high-performance card designed for sustained rapid-fire shooting and full-motion video, two of the most popular features in today's digital cameras. The Lexar Platinum II CF card brings out the ultimate performance in your Digital SLR (DSLR) camera, and is available in 1GB, 2GB, 4GB, and 8GB capacities.

Unleash Your Creativity

Maximize Your Photo-Taking Experience. If you've invested in a DSLR camera, it's important to maximize that investment. The Lexar Platinum II CF card is speed-rated at 80x, the equivalent of a minimum write speed capability of 12MB per second, which means that you'll never miss a shot. It gives you the flexibility to be creative and experiment with your DSLR camera, knowing you can rely on high-speed performance and large card capacities—ensuring you can always capture that perfect moment.

Includes Valuable Downloadable Software. The Lexar Platinum II CF cards include Lexar Image Rescue 3[™] software, which reliably recovers most photo, video, and audio files, even if they've been erased or the card has been corrupted.* The software can also reformat the card, securely delete images, and report on the overall condition of the card, so you can ensure it's in perfect working order. What's more, you can transform your photos into stunning works of art with a 6-month subscription to Corel[®] Painter[™] Essentials 4 software. Both are available for free download with purchase of select Platinum II CF cards.**

One Card Does it All. The Lexar Platinum II CF card offers the ultimate in versatility. It's the perfect place to save and store your photos, favorite songs, and multimedia files. It gives you the power and capacity to rapidly shoot a multitude of photos, and then allows you to process those photos in creative ways. Complete with innovative features and valuable free downloadable software, the versatile Lexar Platinum II CF card is the perfect all-in-one solution for all your photo storage needs.

* Image or other data recovery is not 100% guaranteed.

** Software offerings may vary depending on product ship date and store. Please check product packaging for included software offerings. The Lexar "x" speed rating describes minimum write speed capability where x=150KB/sec sustained write speed. Actual usable memory capacity may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes.
