

SIP ND2200 SERIES

*The first IP phone
designed just
for hotels.*

The power and flexibility of SIP. Made just for hospitality.

Teledex iPhone SIP ND2200 series phones are the perfect complement to our large color display iPhones. Designed for the specific needs of the global hospitality industry, Teledex iPhones are easy for IT managers to set up, and easy for your guests to use.

You get the outstanding voice quality and durability that Teledex is known for. And because these VoIP phones share the same attractive case design as our analog iPhones, you can install a mix of technologies (SIP and analog) in a single deployment and still present a consistent look and feel.
