## Safety Precautions and Advice

---

### ADVICE

- There is possibility that the battery may be run down, making it hard to start the engine if you set the sound coming from the speakers loudly for an extended period of time.
- Never disassemble or modified the speakers. Stop operating the unit immediately and have it inspected and repaired by your authorized Honda car dealer if there is no sound from the speaker or speaker smells foul. Failure to follow is precaution can cause fire or permanent damage.
- Do not wet the speaker with water, liquor or beverage as they may cause damage or some sort of malfunction.

### INFORMATION

- Lower the volume to proper level in order to hear the sounds or traffic signals from outside the vehicle. Missing the outside sounds or traffic signals may endanger not only you but also the pedestrians.
- To take the fullest advantage from the speaker and audio unit, maintain adequate temperature in the cabin.
- If there is any abnormality in the operation of the speaker and audio unit, have them inspected and repaired by your authorized Honda car dealer.

## Adjustment of the Fader (FAD) on the Standard Audio Unit

---

### CAUTION

For your safety and safety of others, do not operate the fader while the vehicle is in motion.

### INFORMATION

- For operation of the audio unit, refer to the car's Owner's Manual.
- You may adjust the balance in volume between the headrest speakers and door speakers with the fader on the audio unit.

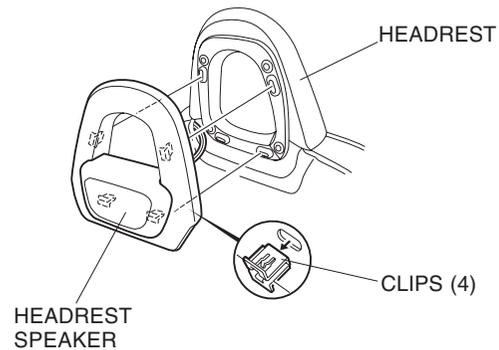

**These Are Normal, and Not Troubles**

Symptom	Probable Cause	Remedy
There is no sound from the speaker, or strength of the sound coming from the speakers is too small.	<ul style="list-style-type: none"><li>• The volume is set to minimum level.</li><li>• The fader/balance level are not set properly or not set at the center.</li><li>• The mute switch is turned ON</li></ul>	<ul style="list-style-type: none"><li>• Raise the volume.</li><li>• Adjust the fader/balance level properly.</li><li>• Turn the mute OFF.</li></ul>

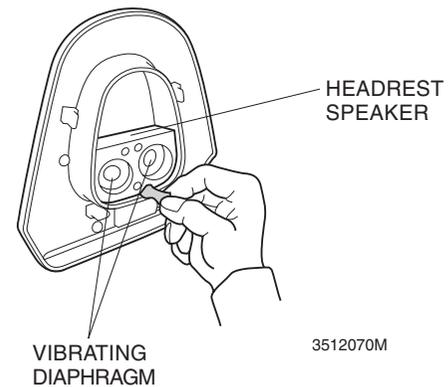

## Care of Headrest Speaker

### Cleaning

- Wipe with a clean, dry cloth.
- If dust, first or dead leaf is stuck between the headrest speaker and headrest, remove the speaker from the headrest and clean it as described.
