CPU	32bit Pentium compatible (using 32 bit operating system), (Vista: using both 32 bit and 64 bit operating system)
Memory (RAM)	Windows: Win 2000 Pro/XP: More than 128 MB, Vista: More than 512MB Mac: More than 128 MB
Hard Disk Free Space	Win: Over 70 MB of available space, Mac: Over 100 MB of available space
Interface	USB 1.1 or later specification
Other	CD-ROM drive for installation
Monitor	SVGA, high colour or higher graphics card

Introducing the new QL-500W Label Printer from Brother.
The faster, easier and cheaper way to print labels.

Die-Cut and Continuous Length Labels

The Brother QL-500W Label Printer has taken label printing to new levels. Whether you need one label or many labels, it's the fastest, easiest and most versatile way to print labels directly from your PC/Mac. Perfect for printing address & shipping labels, banners & signage, this machine has unique label flexibility and can print on both die-cut peel-off labels or continuous length tape.

Fast printing of high quality labels!

There is no wastage of labels (as you would have with sheets of labels) because you only print as many as you need.

- > Prints at speeds of up to 56 labels per minute*
- > Includes P-touch Editor software which allows you to create custom layouts with barcodes, graphics, true type fonts and special formatting (including frames and tables)
- > Highlight, click and print option for quickly printing labels from popular Microsoft Office applications including Outlook®, Word® and Excel®
- > Direct Thermal print technology eliminates toner, ink and ribbon costs
- > Label Templates - for quick label creation
- > Full network connectivity allows multi-user printing with optional PS-9000 print server

*Standard address labels

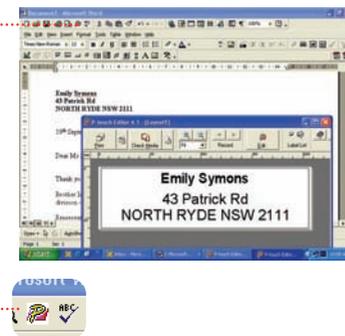

CAUTION! SLIPPERY SURFACE.

Two Easy Ways to Make Labels

① Instant Mailing Labels with the Add-in Utility

Printing labels is as easy as 3 simple steps.

1. Highlight area to be printed.
2. Click the P-touch icon on the Word®, Excel® or Outlook® toolbar.
3. Press print! The preview window is WYSIWIG, so will show you exactly what the label will look like when printed.

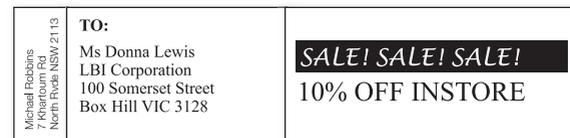

② Use the P-Touch Editor 5.0 software

Or get creative and design your own labels with our label design software. You can add photos, images, barcodes, logos and graphics to customise your labels.

> One roll, many applications

With the one roll of Continuous Length Tape, you can make mailing labels, shipping labels as well as banners and signs. Now that's versatility.

Mailing label Shipping label Indoor sign

> Database Connection

You can easily and instantly create mailing labels by using existing data from your database (mdb, csv, xls and SQL Server formats) by adding the required fields onto the label layout in the P-Touch Editor software and pressing print.

> Built-in Templates

There are over 100 Label Templates available to use directly or to customise to your needs.

So versatile, it's ideal for:

- Office Administration
- Asset Management
- Medical/Hospital
- Media
- Retail
- Indoor Signage
- Hospitality
