

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- Never operate this appliance if it has a damaged cord or plug, if it is not working properly or if it has been dropped or damaged, or dropped into water. Return the aged, or dropped into water. Return the appliance to an authorized service center for examination and repair.
- Keep the cord away from heated surfaces.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Unit is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in, or drop into, water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.

**WARNING** — To reduce the risk of burns, electrocution, fire, or injury to persons:

- Always unplug appliance immediately after using.**

Any appliance is electrically live even when the switch is off. To reduce the risk of death by electric shock:

## KEEP AWAY FROM WATER BEFORE USING READ ALL INSTRUCTIONS

Use this appliance only for its intended use, as described in this manual. Do not use attachments not recommended by the manufacturer.

This straightening iron is intended for household use. Use on Alternating Current (60 hertz) only. This unit is designed to be operated at 120V AC.

Never leave your straightening iron on and unattended. However, should you fail to turn the unit off, it will shut itself off automatically within 60 minutes.

**WARNING: The straightening iron's pure ceramic plates will get very hot within a few seconds and should not be placed in contact with the skin after the straightening iron has been turned on.**

The iron's unique 5 ultra-high heat temperature settings and instant heat technology provide styling versatility for all hair types. If you have fine hair, a low temperature will provide the best results. If you have thick, wavy or hard-to-straighten hair, keep the heat setting on high. You can vary the iron's temperature according to your particular need!

The iron's unique 5 ultra-high heat temperature settings and instant heat technology provide styling versatility for all hair types. If you have fine hair, a low temperature will provide the best results. If you have thick, wavy or hard-to-straighten hair, keep the heat setting on high. You can vary the iron's temperature according to your particular need!

Some experience is necessary when learning iron several times, you will learn the ideal way to straighten and style your hair. A bonus protective heat shield storage pouch has been included to safely store product away when hot. Great for use at home or when traveling.

The plates of your new straightening iron offer extra length for faster styling and the newest technology for better results. Surfaces are 100% pure ceramic, with a tourmaline coating for ultra smooth glide and extra easy cleanup – any residue from styling products wipes right off! The combination of ceramic and tourmaline evenly distributes heat to protect hair from damaging hot spots. Clouds of ions, naturally emitted when tourmaline is heated, eliminate fly-aways and frizzies to leave hair silky smooth and shiny.

You'll notice the plates of your new iron give a little, or “float”,. This provides firmer, more even contact with hair, for better results when straightening.

The new tourmaline ceramic technology is a hair easier, and letting you achieve salon results at home.

## SAVE THESE INSTRUCTIONS

- Do not touch hot surfaces of the appliance. Use handles or knobs.
- Do not pull, twist, or wrap line cord around appliance.
