- PowerFocus™ HD CRTs & PowerFocus™ HC Lens System
- Anti-glare TheaterShield™

- MegaBand™ Super Wide Band Video Amp
- SRS® WOW™
- Virtual Dolby® (SRS® TruSurround®)

- Two HDMI™
- Two IEEE 1394 Ports (DTVLink)
- Split Cabinet Design with Built-in Lifting Handles
- Cinema Series® Exclusive Cosmetic Design

ADVANTAGE TOSHIBA

- >> CrystalScan HDSC™ uses the full high definition display capability of the television to create the sharpest, most realistic picture possible from every source.
- >> OmniViewer™ Memory Card Slot accepts five different types of memory cards, including SD (Secure Digital), MM (Multi-Media), MS (Memory Stick), CF (Compact Flash), and SM (Smart Media). In addition, OmniViewer™ includes a JPEG Viewer program that allows the TV to display pictures from most digital cameras. Pictures can be rotated, and can be viewed in an automatic presentation format.
- >> TV Guide On-Screen™ Interactive Program Guide will show program data on both digital and analog channels, from both terrestrial and cable reception. It even has the ability to control external recording devices for one-touch recording.
- >> SRS® WOW™ provides a more enveloping sound with enhanced bass and better dialogue reproduction.
- >> High Definition Multimedia Interface (HDMI™) is a single cable connection, which ensures that all signals remain in their pure digital form and secure by use of High Definition Copy Protection (HDCP) regardless of signal output resolution. Two HDMI inputs, as well as two IEEE 1394 (DTVLink) are included on the Integrate Cinema HDTV sets.
