## 4-Port USB 2.0 Hub

### 4-Port USB 2.0 Hub

Maximize your potential with this new 4-Port USB 2.0 Hub. Using this top-quality, high-performance hub you'll be able to connect multiple USB 2.0 high-speed peripherals to your PC. And its compact size makes it ideal for laptops, which often have limited USB connection options. Your potential for expansion is practically unlimited with this precision-engineered product. In fact, you can connect up to 127 USB devices to your computer through daisy chaining. The 480Mbps bandwidth gives you the flexibility to connect peripherals that consume a great deal of bandwidth, such as external storage devices, scanners, printers, as well as DVD and CD-RW drives. Of course, this 4-port USB 2.0 hub is backward compatible with USB 1.1 products, giving you even more connection options. This extraordinary hub comes with a USB A to B 1m cable and an AC power adapter.
