Frequency Band	2.4GHz~2.4835GHz ISM Band
Working Distance	10 meters
Standby Time	48 hours
Playing Time	10 hours/65dB
Battery	3.7V Li-Polymer rechargeable battery
Weight	210g
Pin Code	<b>1234</b>

### 4. Product Diagram and Indicators:

### 5. How to prepare the product:

#### ➤ Power Supply and Charging:

- 1) The speaker must be fully charged before the first use. Total charge time suggested is 3-4 hours.
- 2) Unit must be charged with the appropriate charger included in the package to avoid damage and injury.

- 3) Connect the adapter into an electrical outlet. Plug the adapter's connector into charging port.
- 4) While charging, the amber indicator will stay on, green indicator means the unit is fully charged. Re-charge time after first use usually takes approximately 2 hours.

➤ **Pairing and establish a connection:**

***Please make sure you have paired the product with Bluetooth AV sources before you start to use. Kindly follow the instructions below for pairing:***

- 1) Turn your ABT-SPK-A8 Bluetooth Wireless Speakers on by press and hold the 「▶||」 button until indicators blink rapidly. At this moment, the product is in pairing mode.
- 2) At this time, you need to activate your other Bluetooth devices for searching the ABT-SPK-A8 Bluetooth Wireless Speaker, please follows the original instruction of your other Bluetooth devices. Choose the device name and enter 「1234」 on your keyboard to establish a pairing connection.
- 3) The ABT-SPK-A8 Bluetooth Wireless Speakers supports two audio connections. Please select HEADSET/HANDSFREE profile if you like to connect to the mobile phone. Or A2DP/AVRCP profile for stereo sound effect to your audio sourcing.
- 4) After successful connection, the indicators will turn to regular blinking at twice every second.

***Note: If the pairing can not be established within 60 seconds, the blue indicator turns to regular blinking once every 2 second automatically. A re-pairing procedure is needed to establish connections again. Please repeat pairing procedure listed above.***

## **6. Connect ABT-SPK-A8 to PC or Notebook Computers with Bluetooth Capabilities.**

(Please check if your PC or Notebook computers have Bluetooth ability or not. If not, you can purchase Advantek Networks ABT-02U (USB Bluetooth Dongle) to make your computers Bluetooth compatible. Detail specification for ABT-02U can be found on-line at: <http://www.advanteknetworks.com/products/bluetooth/abt02u.html>)

- 6.1 To play music via a Bluetooth connection with your computer, please make sure the ABT-SPK-A8 Bluetooth Wireless Speaker has been paired with your PC or Notebook computer. (Refer to **Pairing and establish a connection** section of this manual for instructions for pairing.)

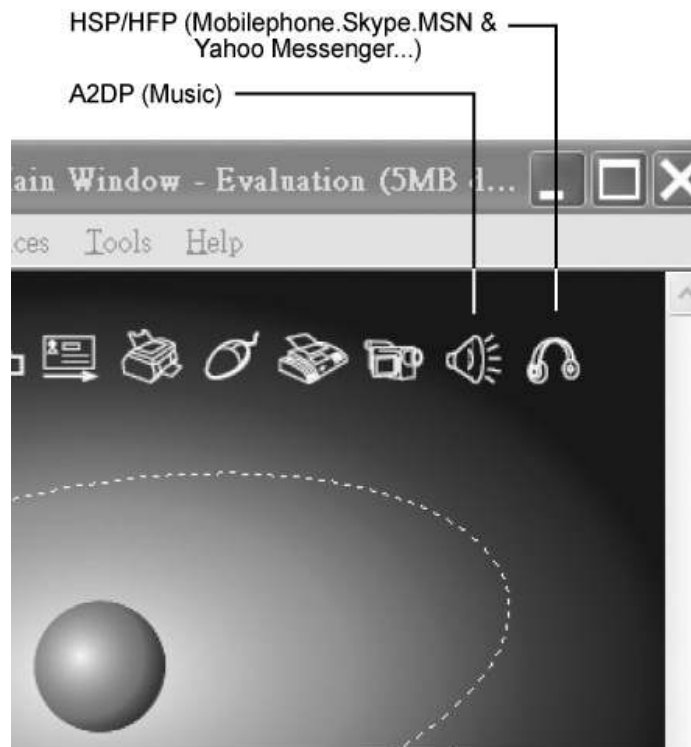

***Note: The device did not support “remote control” function when connecting with a Bluetooth AV Transmitter; ▶|| button will act as “mute” function.***

- 6.2 To play music via a Bluetooth USB Dongle, please complete AV pairing and then activate intended audio player interface. When completed, the music will be transmitted to the speaker automatically.

***Note: The Bluetooth USB Dongle should support AVRCP profile to activate***

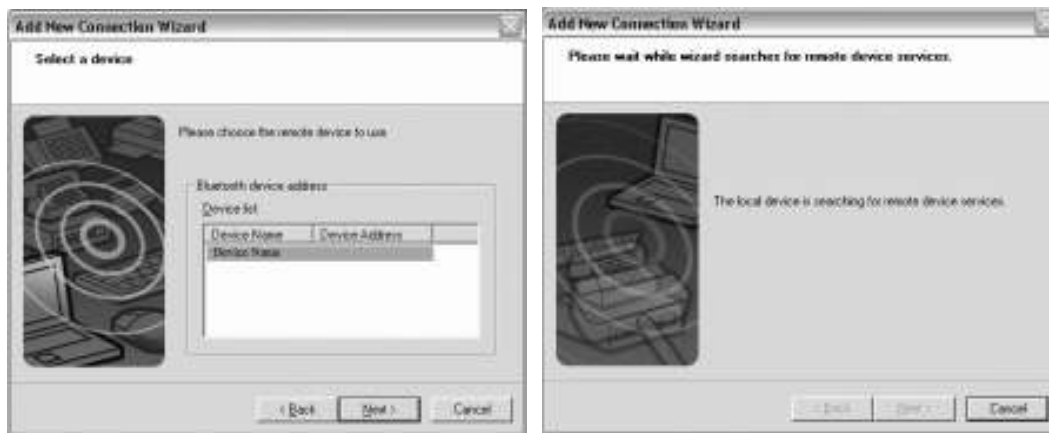

***“remote control” function.***

**Example A : IVT Driver Via USB Dongle :**

**Example B : TOSHIBA Driver Via USB Dongle :**

## 7. Connect ABT-SPK-A8 to Cell-phones with Bluetooth Capabilities.

7.1 Check your cell phone's user guide, find out the procedure for Bluetooth Connectivity and follow the direction to complete pairing with ABT-SPK-A8 Bluetooth Wireless Speakers. If your cellphone support only HANDSFREE profile, please activate connection from the cell-phone.

7.2 Your Cell-phone will always be in top priority for accepting incoming or making outgoing calls, it will interrupt the on-going activity and music will be muted temporarily. As soon as the call ends, the music will resume.

## 8. Connect ABT-SPK-A8 directly to other audio sources.

Use rear "LINE-IN" jack to directly connect to audio sources; such as MP3 player, Discman, Laptop computer or other audio and stereo players. Simply plug the 3.5mm AV cable that is in the package into the "LINE-IN" jack located in the rear and the other end to your audio sources,

then press ►|| button to play music. All functional buttons on the device will be disabled as soon as "LINE-IN" jack is connected, please operate function from the audio sources directly.

## 9. Connect to a 2.5mm External Microphone

Using rear "MIC-IN" jack for external microphone, simply plug the connector into the jack and turn on the Mic. Please adjust the position of microphone tube for sensitivity and sound quality.

### Certification and Safety Approvals/General Information

This device is CE、FCC and BQB approved.

#### Federal Communication Commission(FCC) Statement :

Rule15.21 : You are cautioned that changes or modifications not approved by the manufacturer could void the warranty of the equipment.

Rule15.105 (b) : This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against interference in a residential installation. This equipment generates radio frequency and, if not installed and used in accordance with the instructions, it may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orientate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**European Union Directives Conformance Statement:**

Bluetooth Wireless Speakers with hands free function (ABT-SPK-A8) is conformity with the appropriate standards EN300328, EN301489-1, EN301489-17, EN60950, EN50371. In accordance with the council directive 1999/5/EC.
