

The Cuisinart® Tradition

Inspired by the great French kitchens, Cuisinart began making professional cookware over 35 years ago. Constructed of the finest materials available to perfectly perform all of the classic cooking techniques, Cuisinart GreenGourmet™ Hard Anodized cookware continues a long tradition of excellence while breaking new ground in environmentally-friendly cookware.

Built to perform and last with the same Cuisinart standards, this collection satisfies the demands of everyday cooks and the ideals of today's "green" chef.

Savor the Good Life® right at home with family and friends, with Cuisinart® Green Gourmet™ Hard Anodized cookware.

Cuisinart® Goes Green

Cuisinart is going green with brand-new eco-friendly cookware that is as good for the environment as it is for your cooking. Prepare healthy meals using the variety of pots and pans included in our set or the diverse skillet and specialty items suited for just the right task. Simmer a hearty vegetable beef stew or make delicious grilled chicken panini with avocado.

Cuisinart® GreenGourmet™ Hard Anodized

Eco-Friendly Nonstick Cookware

Environmentally Friendly Cookware

Cuisinart® GreenGourmet™ cookware is good for the environment because it uses manufacturing techniques that reduce harmful carbon emissions by consuming less energy.

Featuring a ceramic-based nonstick coating made without the use of petroleum, exclusive Cuisinart Ceramica™ cookware helps to conserve our natural resources and lets you cook with a good conscience. Rest assured that Cuisinart uses only packaging that is made from 100% recycled materials and is printed with soy ink. Beautiful stainless steel handles stay cool on the stovetop while you cook and are constructed of 70% recycled stainless steel—great protection for you and the environment!

Unlike traditional nonsticks, the GreenGourmet™ collection is PTFE- and PFOA-free. Compared to other cookware choices, GreenGourmet™ Cookware requires less energy to reach desired cooking temperatures. It can also go directly into the oven and be used for top-browning and broiling foods, unlike traditional nonstick surfaces.

Energy-efficient and eco-friendly with the same high standard of quality you expect from Cuisinart, this collection proves it's easy being green.

Exclusive Cuisinart Ceramica™ Nonstick Technology

- PTFE- and PFOA-free nonstick cooking surface
- Ceramic-based coating is petroleum free, helping to conserve oil consumption
- Nonstick interior for healthy cooking

Energy Saving Construction

- Hard anodized pan construction provides superior heat conductivity, requiring less energy to achieve desired cooking temperature

Stay-Cool Eco-Friendly Handles

- Riveted stainless steel handles stay cool on the stovetop
- Handles are made from 70% recycled stainless steel

Environmentally-Friendly Packaging

- Packaging is made from 100% recycled materials and is printed with soy ink

Versatile Performance

Oven and broiler safe
