## 2GB 14-In-1 MP3 Player

### High Speed USB 2.0

Use your computer's high-speed USB 2.0 port to transfer data faster than ever. Transfer data at speeds up to 480Mbits/second.

### MP3 Player

This device can capture hours upon hours of your favorite music. Everywhere you go, you'll have your customized music collection at your fingertips.

### Playlist Management

Organize your music into a convenient playlist. No need to shuffle through to find your favorite songs. Easily create a playlist to listen to your songs in the order you have chosen.

### ID3 Tags Support

ID3 tags are additional information that is stored within the audio files. Such as Song title, Artist name, Album name, Year and Genre.

### Supports for WMA

WMA (Windows Media Audio) File Format. Listen to all your WMA files direct from Windows Media Player. No need to convert your existing WMA files to MP3.

### FM Radio

Listen to FM radio on the go. This device has a built in FM tuner with great reception, perfect for an evening jog or the walk to work. In addition, save up to 25 pre-set stations, to easily access your favorite radio stations.

### FM Recording Capabilities

Easily record your favorite FM broadcasts at a touch of a button. Record now and listen later.

### Voice Recording

This wonderful player doubles as an incredibly compact memo recorder. Record your important meetings. Create a voice recorded to-do list. Record your important thoughts as they come to you.
