

CTR 3

The CTR 3's Induktions Brake System™ is computer calibrated to provide the most accurate performance control available among elliptical trainers. A 50lbs flywheel offers a comfortable, smooth flowing and natural elliptical pattern. High quality drive components and resistance technology combined with sealed ball bearing construction makes the CTR 3 stand ahead of the rest. State-of-the-art electronic computer features nine programs to choose from. The CTR3 also features heart rate control programming and automatic resistance changes to provide the most effective cardio workout available.

- Training computer with recovery feature include settings for total distance, time, calories burned and upper pulse limit
- SIEMENS® electronic LCD high resolution display with 6 adjustable hill profiles, 2 manual mode options and 2 heart rate controlled programs
- KETTLER® USB interface allows downloads of interactive software and exchangeable pre-set programs from www.kettlerusa.com
- Key pad control for adjusting resistance in manual program mode

- The KETTLER® eSYS™ System allows for perfect ergonomic, biomechanical and electronic adjustments for the beginner to the most demanding athlete
- KETTLER® Induktions Brake System™ - adaptable manual or programmable 25-400 watt electro-magnetic resistance range allows for variable users and 75 levels of training with no friction nor wear to brake components
- KETTLER® 50 lbs Drive System offers a smooth, fluid and effortless glide that mimics a natural walking or running pattern perfectly with virtually no impact
- Heart rate measured by either integrated hand pulse sensors, ear lobe clip or included wireless Polar® T34 heart rate transmitter
- Sturdy powder coated, ergonomically formed tubing frame with transport castors and levelers
- Light Commercial Warranty: 2 years parts, 1 year labor, lifetime frame

Electronic induction-brake system. Hi-tech for precise performance control

High quality self-aligning ball bearings for smooth running
